WASTE MANAGEMENT LICENCE APPLICATION FOR THE MANAGEMENT OF ALL WASTE STREAMS FOR THE OPEN PIT AND UNDERGROUND OPERATIONS AT VENETIA MINE, LIMPOPO PROVINCE

DEA Ref Number (WML): 12/9/11/L43049/5

BACKGROUND TO THE EIA

De Beers Consolidated Mines (Pty) Ltd (DBCM) has appointed Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as the independent environmental consultants to undertake the Scoping and Environmental Impact Assessment (EIA) process for the proposed Waste Management Licence Application for the listed activities associated with the upgrade of the Waste Management Facility (WMF) and tyres of a designated area on the waste rock dump for the disposal of demolition and building materials, at Venetia Mine (Venetia), Limpopo Province.

PURPOSE OF THIS DOCUMENT

The purpose of this Background Information Document (BID) is to provide Interested and Affected Parties (I&APs) with background information about the proposed project and to outline the EIA process to be undertaken. Further this document intends to inform I&APs on how to participate in the EIA Process. You are encouraged to register as an I&AP so that you can be kept informed about the project throughout the process.

Further documents will be available at various stages during the EIA process to provide I&APs with detailed information about the project and there will be further opportunities to ask questions, raise issues of concern and give suggestions to enhance benefits of the Project. Stakeholders will also be given the opportunity to verify that their issues have been considered and to comment on any study findings. Thereafter, the findings, along with your comments will be submitted to the competent authority, namely the national Department of Environmental Affairs (DEA), for consideration. Please note that the Draft Scoping Report is available for comment at the following locations:

Location	Contact	Location	Contact

Register as an I&AP

Environmental Resources Management Southern Africa (Pty) Ltd (ERM) has been appointed by De Beers Consolidated Mines (Pty) Ltd to undertake the Environmental Impact Assessment Process (EIA) and associated Public Participation Process.

You are invited to register as an I&AP and comment on this project. Please complete the enclosed registration/comment sheet and/or contact:

PROJECT DESCRIPTION

Project Locality

Venetia Mine is situated on the farm Venetia 103MS , Krone 104MS, Rugen 105MS, Drumsheugh 99MS, which lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

The mine is located within the Musina Local Municipality of the Vhembe District Municipality. The border with Botswana and Zimbabwe is situated approximately 30km to the north.

Figure 1. Venetia Mine Locality

Waste Management Licence (WML) Application

Project Background

Venetia Mine is an existing open pit mine that recently (October 2012) received an Environmental Authorisation (EA) and positive record of decision from DMR from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) for the development of underground workings and an amendment of the existing Environmental Management Plan (EMP). Open pit mining operations are expected to cease between 2020 and 2023, after which only underground operations will continue. The Waste Management Licence application is being undertaken to license the listed activities associated with the upgrading of the Waste Management Facility (WMF) and designated disposal area for construction, demolition and building materials from mining operations in order to meet the legislative requirements in terms of the National Environmental Management: Waste Act (Act 59 of 2008).

Need and Desirability of the Project

Current waste management activities and facilities at Venetia can be revised and upgraded and once more formalised (as per the proposed project scope), the on and off-site management of waste will become more streamlined. The proposed waste management activities listed in GN R.921 include:

- construction and expansion of a facility for waste management;
- sorting, shredding, grinding, crushing, screening or bailing of general waste;
- recycling of general waste;
- recovery of waste including the refining, utilisation, or co-processing of waste;
- reuse or recycling of hazardous waste;
- treatment of hazardous waste; and
- disposal of inert waste to landfill.

The key objective of the Integrated Waste Licensing application for Venetia Mine is to reach a state of full compliance in respect of the various waste management activities as soon as is practically possible.

The Waste Management Facility (WMF)

The WMF (previously referred to as the salvage yard) is an area currently used to collect waste for sorting, laydown, re-use, recycling and screening before final disposal. General as well as hazardous wastes are received, stored, sorted, recycled and finally (where possible) transferred from the mine for final disposal. Currently, almost all waste streams collected at the mine pass through this facility.

The WMF is an existing facility but expansion is proposed (as per this application) and Venetia Mine seeks to formalise this area.

Area on Waste Rock Dump for the disposal of demolition and building materials

Although this application is not for any mineral waste, it is proposed that various types of waste be disposed of within the existing Waste Rock Dumps (WRD) due to various difficulties with removing these wastes from site. The types of waste proposed to be disposed of on the WRD include earth moving vehicle (EMV) tyres , light duty vehicle (LDV) waste tyres, building rubble, demolition and construction wastes and wooden waste.

THE ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

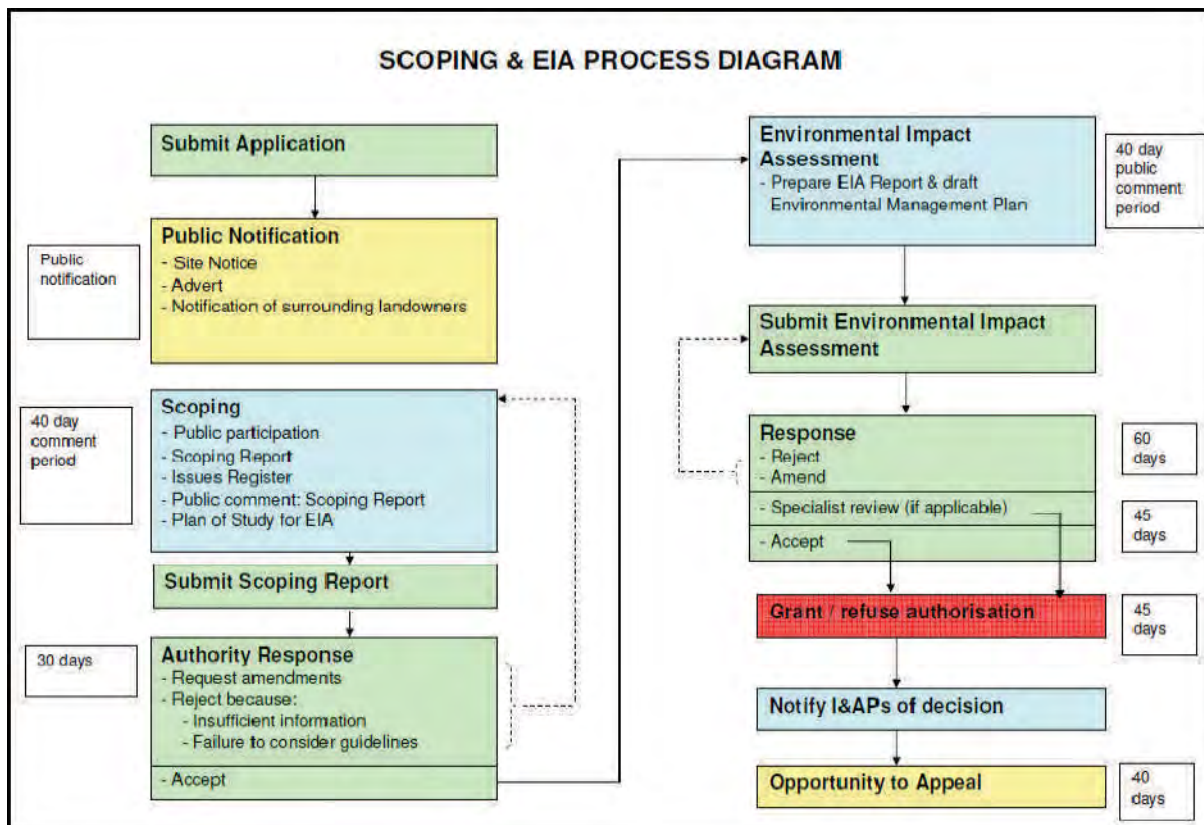

National Environmental Management: Waste Act (Act 59 of 2008), as amended

The National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) came into effect on 1 July 2010 and repealed Section 20 of the Environmental Conservation Act, 1989 (Act No. 73 of 1989), introducing new provisions with regards to the licensing of waste management activities. The National Environmental Management: Waste Amendment Act (Act 26 of 2014) was promulgated on 2 June 2014 and repealed or replaced various sections of NEMWA.

The list of waste management activities that have, or are likely to have, a detrimental effect on the environment were promulgated on 29 November 2013 (GN R. 921). According to GN R.921, a person who wishes to commence, undertake or conduct:

- an activity listed under Category A, must conduct a Basic Assessment process; or
- an activity listed under Category B, must conduct a Scoping and EIA process.

There are a number of both Category A and Category B listed activities at Venetia Mine and, as such, a full Scoping and EIA is required for this Waste Management Licence application. The National Environmental Management Act (NEMA) EIA Regulations must be followed, with a successful application resulting in the issuing of a **Waste Management Licence**. The relevant published Norms and Standards will also be considered.

The listed activities being applied for under this Waste Management Licence application include:

GN 921 Listing Category	Activity to be Licensed	Description
Waste Management Activities: Waste Management Facility (WMF)		
Category A, No. 2	The sorting, shredding, grinding, crushing, screening or baling of general waste at a facility that has an operational area in excess of 1,000m ² .	1. The sorting and baling of general waste: <ul style="list-style-type: none"> • Cardboard; • Paper; • Glass; • Cans; • Plastic; and • Non-recyclable domestic waste, including food waste and compost the food waste 2. The shredding and chipping of wood. 3. Composting of food wastes.
Category A, No. 3	The recycling of general waste at a facility that has an operational area in excess of 500m ² , excluding recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Recycling and/or re-use of waste: Manual and/or mechanical sorting, dismantling, baling, stripping, shredding, crushing, chipping and compaction of any of the following wastes: Used screen panels, metals, conveyor belts, hard hats, safety boots, overalls, plastic water containers, blasting wire, electrical cabling, redundant furniture, windscreen glass, rubber and air filters and wood.
Category A, No. 5	The recovery of waste including the refining, utilisation, or co-processing of waste in excess of 10 tons but less than 100 tons of general waste per day or in excess of 500kg but less than 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Recovery of wood (chipping and hammer mill).
Category A, No. 12	The construction of a facility for a waste management activity listed in Category A of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category A, No. 13	The expansion of a waste management activity listed in Category A or B of this Schedule which does not trigger an additional waste management activity in terms of this Schedule.	All construction and associated activities relating to the upgrade of the WMF.
Category B, No. 2	The reuse or recycling of hazardous waste in excess of 1 ton per day, excluding reuse or recycling that takes place as an integral part of an internal manufacturing process within the same premises.	<i>Ex situ and in situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.

GN 921 Listing Category	Activity to be Licensed	Description
Category B, No. 3	The recovery of waste including the refining, utilisation, or co-processing of the waste at a facility that processes in excess of 100 tons of general waste per day or in excess of 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	<i>Ex situ and in situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 4	The treatment of hazardous waste in excess of 1 ton per day calculated as a monthly average; using any form of treatment excluding the treatment of effluent, wastewater or sewage.	<i>Ex situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 10	The construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category C	GN R. 926 National Environmental Management: Waste Act (59/2008): National norms and standards for the storage of waste.	Registration for Storage of waste under Category C of GN R. 921.
Waste Activities: Demolition and Building Rubble Dump		
Category B, No. 9	The disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorised by or under other legislation.	Disposal of inert waste (demolition and building rubble) used for levelling and building (infilling).

Please ensure that you have registered and/ or submitted your comments by 05 November 2014 in order to have them included.

You are invited to be part of the EIA process. As a stakeholder, you are invited to identify issues and raise concerns that you have in relation to the Waste Management Licence Application. Any member of the public may register as a stakeholder throughout the process. Please see Page 1 for the various locations that the WML Draft Scoping Report is available for comment. The project team will provide a response to the questions, and all comments and responses will be included in the Final Scoping Report that will be submitted to the DEA for their consideration.

Should you have any queries, comments or suggestions regarding the proposed project, please note them below.

AANSOEK VIR 'N LISENSIE VIR AFVALBESTUUR VIR DIE BESTUUR VAN ALLE AFVALSTROME VIR DIE OOPSKAG- EN ONDERGRONDSE BEDRYGWIGHEDE BY DIE VENETIA-DIAMANTMYN, LIMPOPO-PROVINSIE

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

AGTERGROND TEN OPSIGTE VAN DIE OIS

De Beers Gekonsolideerder Myne (Edms.) Bpk. (DBCM) het vir Environmental Resources Management Southern Africa (Pty) Ltd (ERM) as die onafhanklike omgewingskonsultante aangewys om die omvangbepalings- en omgewingsimpakstudieproses (OIS) vir die voorgestelde aansoek vir 'n lisensie vir afvalbestuur vir die gelyste aktiwiteite te onderneem, wat met die opgradering van die afvalbestuursfasiliteit (ABF) verband hou asook die bepaling van 'n aangewese gebied op die afvalklip-stortterrein vir die wegdoening van slopings- en boumateriale by die Venetia-diamantmyn (Venetia), Limpopo-provinsie.

DOEL VAN HIERDIE DOKUMENT

Die doel van hierdie agtergrondinligtingsdokument (AID) is ten einde belanghebbende en geaffekteerde partye (B&GP) van agtergrondinligting rakende die voorgestelde projek te voorsien en ook om die OIS-proses wat onderneem gaan word, uit te lig. Hierdie dokument het ten doel om B&GP in te lig aangaande deelname aan die OIS-proses. U word aangemoedig om as 'n B&GP te registreer sodat u op hoogte kan bly met betrekking tot die projek deurgaans die proses.

Hierdie dokumente sal verder ook beskikbaar wees op verskillende stadiums tydens die OIS-proses om B&GP van gedetailleerde inligting omtrent die projek te voorsien en daar sal ook verdere geleentheid wees om vrae te vra, knelpunte te opper en voorstelle te maak ten einde die voordele van die projek te bevorder. Belanghebbende sal ook die geleentheid ontvang ter bevestiging dat hulle knelpunte oorweeg is en om kommentaar te lewer op enige studiebevindinge. Hierdie bevindinge saam met u kommentaar sal hierna aan die bevoegde owerheid, naamlik die Departement van Omgewingsake (DOS) voorgelê word vir oorweging. Neem asseblief kennis dat die konsep-omvangbepalingsverslag vir kommentaar beskikbaar is by die volgende plekke:

Plek	Kontak	Plek	Kontak
Musina se plaaslike munisipale biblioteek	(015) 534 6100	Musina se poskantoor	(015) 534 2003

ERM-projekwebtuiste	http://www.erm.com/VenetiaMineEIA	Musina se munisipale kantore	(015) 534 6181

Registreer as 'n B&GP

Environmental Resources Management Southern Africa (Pty) Ltd (ERM) is deur De Beers Gekonsolideerde Myne (Edms.) Bpk. aangewys om die omgewingsimpakstudieproses (OIS) asook geassosieerde openbare deelnameproses te onderneem.

U word uitgenooi om as 'n B&GP te registreer en kommentaar met betrekking tot hierdie projek te lewer. Voltooi asseblief die ingeslote registrasie-/kommentaarblad en/of kontak:

PROJEKBESKRYWING

Projekligging

Die Venetia-diamantmyn is op die Venetia 103MS-, Krone 104MS-, Rugen 105MS- en Drumsheugh 99MS-plase geleë, wat ongeveer 80 km wes vanaf Musina en 40 km noord-oos vanaf Alldays in die Limpopo-provinsie van Suid-Afrika lê. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord vanaf Johannesburg geleë.

Die myn is binne die Musina plaaslike munisipaliteit vanaf die Vhembe-distriksmunisipaliteit geleë. Die grens by Botswana en Zimbabwe is ongeveer 30 km na die noorde geleë.

Figuur 1. Mynligging van Venetia

Aansoek vir 'n lisensie vir afvalbestuur (ABF)

Projekagtergrond

Die Venetia-diamantmyn is 'n bestaande oopskagmyn wat onlangs (Oktober 2012) 'n omgewingsmagtiging (OM) en positiewe rekordsbesluit van DMR by Limpopo se Departement van Ekonomiese Ontwikkeling, Omgewingsake en Toerisme (LEDET) ontvang het vir die ontwikkeling van ondergrondse bedrywighede en 'n wysiging van die bestaande omgewingsbestuursplan (OBP). Die verwagting is dat oopskagmynbedrywighede tussen 2020 en 2023 beëindig sal word, waarna slegs ondergrondse bedrywighede sal voortgaan. Die aansoek vir 'n lisensie vir afvalbestuur word tans onderneem ten einde die gelyste aktiwiteite te lisensieer, wat met die opgradering van die afvalbestuursfasiliteit (ABF) verband hou, asook die aangewese wegdoeningsgebied vir konstruksie-, slopings- en boumateriale afkomstig van mynbedrywighede ten einde aan die wetgewende vereistes kragtens die Wet op Nasionale Omgewingsbestuur: Afval (Wet 59 van 2008) te voldoen.

Behoeftes en wenslikheid van die projek

Huidige afvalbestuursaktiwiteite en -fasiliteite by Venetia kan hersien en opgradeer word, asook weereens wettig verklaar word (soos volgens die voorgestelde projekomvangbepaling). Die bestuur van afval op die terrein asook weg van die terrein sal verder ook meer stroombelyn wees. Die voorgestelde afvalbestuursaktiwiteite, soos gelys in GN R.921, sluit die volgende in:

- konstruksie en uitbreiding van 'n fasiliteit vir afvalbestuur;
- sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval;
- herwinning van algemene afval;
- herstel/herwinning van afval, insluitende die suiwering, benutting of gelyktydige verwerking van afval;
- herbenutting of herwinning van gevaarlike afval;
- behandeling van gevaarlike afval; en
- wegdoening van onaktiewe afval vir grondopvulling.

Die hoofdoelstelling van hierdie aansoek vir 'n lisensie vir geïntegreerde afval, het ten doel dat die Venetia-diamantmyn volledige nakoming kan bereik met betrekking tot die verskeie afvalbestuursaktiwiteite, sodra dit prakties moontlik word.

Die afvalbestuursfasiliteit (ABF)

Die ABF (wat voorheen as die "bergingswerf" bekend gestaan het) is 'n gebied wat tans gebruik word vir die sortering, bepaling, herbenutting, herwinning en keuring van afval wat ingevorder word voor die finale wegdoeningsproses. Algemene sowel as gevaarlike afvalmateriaal word hier ontvang, geberg, gesorteer, herwin en dan uiteindelik (waar moontlik) vanaf die myn vir finale wegdoening oorgeplaas. Byna alle afvalstrome wat by die myn ingesamel word, word tans deur hierdie fasiliteit gestuur.

Die ABF is 'n bestaande fasiliteit, maar uitbreiding word voorgestel (soos volgens hierdie aansoek) en die Venetia-diamantmyn beoog om hierdie gebied wettig te verklaar.

Gebied op die afvalklip-stortterrein vir die wegdoening van slopings- en boumateriaal

Daar word voorgestel dat daar weggedoen word met verskeie soorte afval binne die bestaande afvalklip-stortterreine weens verskeie probleme om hierdie afvalmateriaal vanaf die perseel te verwyder, alhoewel hierdie aansoek nie vir enige mineraalafval bestem is nie. Die soorte afval vir voorgestelde wegdoening op die afvalklip-stortterrein sluit grondverskuiwingvoertuigbande, liggewigvoertuig-afvalbande, bouafval, slopings- en konstruksieafvalmateriaal en houtafval in.

DIE OMGEWINGSIMPAKSTUDIEPROSES

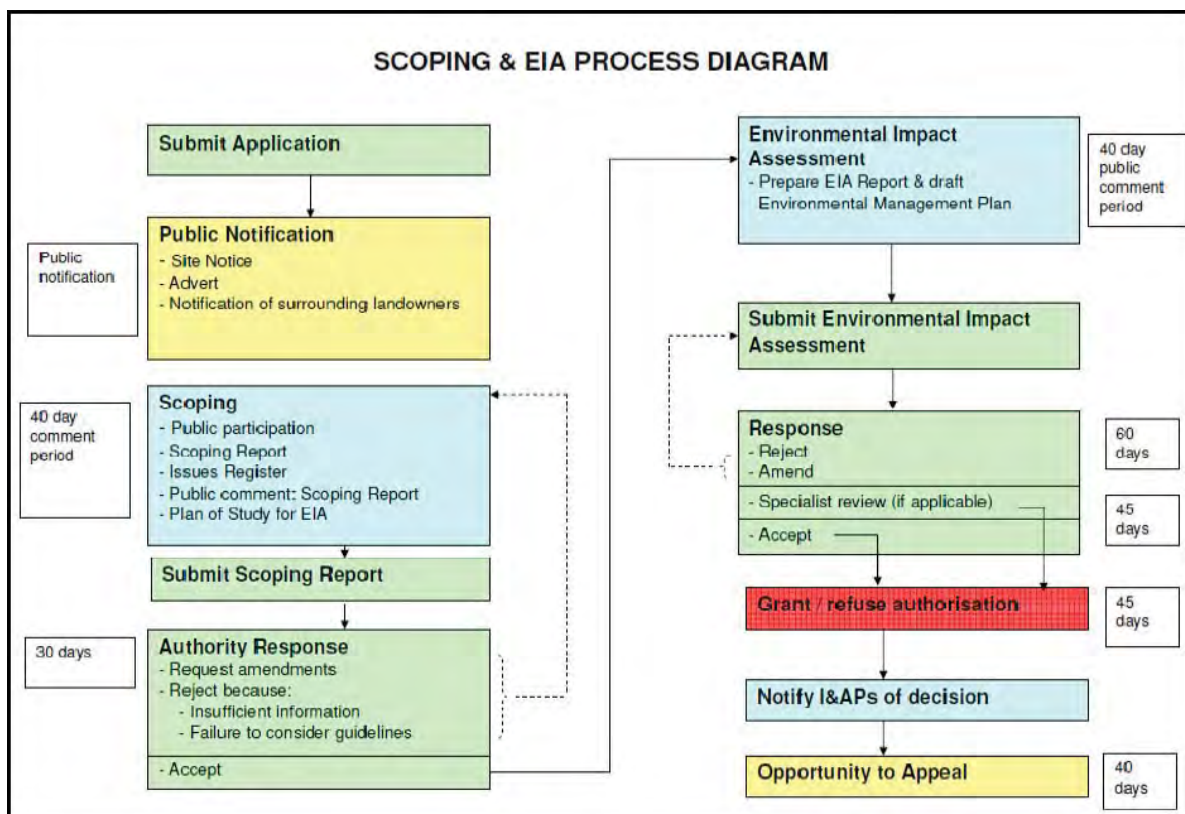

Wet op Nasionale Omgewingsbestuur: Afval (Wet 59 van 2008), soos gewysig

Die Wet op Nasionale Omgewingsbestuur: Afval, 2008 (Wetnr. 59 of 2008) het op 1 Julie 2010 in werking getree en het Afdeling 20 van die Wet op Omgewingsbewaring, 1989 (Wetnr. 73 van 1989) herroep en nuwe voorwaardes bekend gestel met betrekking tot die lisensiering van afvalbestuursaktiwiteite. Die Wysigingswet op Nasionale Omgewingsbestuur: Afval (Wet 26 van 2014) is op 2 Junie 2014 uitgevaardig en het verskeie afdelings van NEMWA herroep en vervang.

Die lys van afvalbestuursaktiwiteite wat tans of waarskynlik in die toekoms 'n nadelige uitwerking op die omgewing sal hê, is op 29 November 2013 (GN R. 921) uitgevaardig. 'n Persoon wat volgens GN R.921 graag 'n aktiwiteit wil aanpak, onderneem of uitvoer:

- soos gelys onder Kategorie A, moet 'n basiese assesseringsproses uitvoer; of
- soos gelys onder Kategorie B, moet 'n omvangbepalings- en OIS-proses uitvoer.

Daar is 'n aantal gelyste aktiwiteite in beide Kategorie A en Kategorie B by die Venetia-diamantmyn en dus word 'n volledige omvangbepalings- en OIS-proses vereis vir hierdie aansoek vir 'n lisensie vir afvalbestuur. Die Wet op Nasionale Omgewingsbestuur (WNOB) se OIS-regulasies moet gevolg word met 'n suksesvolle aansoek wat tot die uitreiking van 'n **afvalbestuurslisensie** aanleiding sal gee. Die toepaslik gepubliseerde norme en standaarde sal ook oorweeg word.

Die gelyste aktiwiteite waarvoor aansoek gedoen word kragtens hierdie aansoek vir 'n lisensie vir afvalbestuur, wat die volgende insluit:

GN 921 Lystingskategorie	Aktiwiteit vir lisensiëring	Beskrywing
Afvalbestuursaktiwiteite: Afvalbestuursfasiliteit (ABF)		
Kategorie A, Nr. 2	Die sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval by 'n fasiliteit wat 'n bedryfsoppervlakte het wat groter as 1,000m ² is.	1. Die sortering en uitskepping van algemene afval: <ul style="list-style-type: none"> • Karton; • Papier; • Glas; • Blikkies; • Plastiek; en • Nieherwinbare huislike afval, insluitende kosafval en komposbereiding van kosafval 2. Die versnippering en kerf van hout. 3. Komposbereiding van kosafval.
Kategorie A, Nr. 3	Die herwinning van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 500m ² beslaan, uitgesluit alle herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herwinning en/of herbenutting van afval: Handmatige en/of meganiese sortering, ontkoppeling, uitskepping, stroping, versnippering, saampers, kerf en kompaktering van enige van die volgende afval: Gebruikte skermpanele, metale, vervoerbande, veiligheidshelms, veiligheidstewels, oorpakke, plastiese waterhouers, plofbare myntraad, elektriese kables, oortollige meubels, voorruitglas, rubber en lugfilters.
Kategorie A, Nr. 5	Die herstel/herwinning van afval insluitende die suiwering, benutting of gelyktydige verwerking van afval wat meer as 10 ton, maar minder as 100 ton algemene afval per dag is óf wat meer as 500 kg, maar minder as 1 ton gevaarlike afval per dag is, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herstel/herwinning van hout (snipper- en hamermeule).
Kategorie A, Nr. 12	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.

Kategorie A, Nr. 13	Die uitbreiding van 'n afvalbestuursaktiwiteit wat in Kategorie A of B van hierdie skedule gelys word, wat nie tot 'n addisionele afvalbestuursaktiwiteit aanleiding gee in terme van hierdie skedule nie.	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie B, Nr. 2	Die herbenutting of herwinning van gevaarlike afval wat meer as 1 ton per dag is, uitgesluit die herbenutting of herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 3	Die herstel/herwinning van afval insluitende die suiwering, benutting of gelyktydige verwerking van afval by 'n fasiliteit wat meer as 100 ton algemene afval per dag óf meer as 1 ton gevaarlike afval per dag verwerk, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 4	Die behandeling van gevaarlike afval wat meer as 1 ton per dag is en wat volgens 'n maandelikse gemiddelde bereken word. Dit word bereken deur enige vorm van behandeling te gebruik, uitgesluit die behandeling van uitvloeisel-, afval- of rioolwater.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 10	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie C	GN R. 926 Wet op Nasionale Omgewingsbestuur: Afval (59/2008): Nasionale norme en standaarde vir die berging van afval.	Registrasie vir stoorplek van afval kragtens Kategorie C van GN R. 921.
Afvalaktiwiteite: Slopings- en boumateriaal-afvalstortterrein		
Kategorie B, Nr. 9	Die wegdoening van onaktiewe afval vir grondopvulling wat meer as 25 000 ton is, uitgesluit die wegdoening van sodanige afval vir die doeleindes van gelykmaking en boubedrywigheede wat deur of kragtens ander wetgewing	Wegdoening van onaktiewe afval (slopings- en bouafval) wat vir die gelykmaking en boubedrywigheede (vulling) gebruik word.

Maak asseblief seker dat u geregistreer het en/of u kommentaar teen 26 September 2014 voorgelê het, ten einde dit vir insluiting te oorweeg.

U word uitgenooi om deel te wees van die OIS-proses. U word as belanghebber uitgenooi ten einde probleme te identifiseer en knelpunte te opper wat u dalk mag hê in verband met die aansoek vir 'n lisensie vir afvalbestuur. Enige lid van die publiek kan as 'n belanghebber deurgaans die proses registreer. Raadpleeg asseblief bladsy 1 vir die verskeie plekke wat die WML-konsepomvangbepalingsverslag beskikbaar het vir kommentaar. Die projekspan sal antwoord op alle vrae verskaf, en alle kommentaar en antwoorde sal in die finale omvangbepalingsverslag ingesluit word wat aan die DOS vir hul oorweging voorgelê sal word.

Indien u enige navrae, kommentaar of voorstelle aangaande die voorgestelde projek het, teken dit asseblief hieronder aan.

Stuur hierdie kommentaarblad terug aan Tougheeda Aspeling van ERM

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

September 2014

Waste Management Licence Application:
Waste management of all waste streams for the
open pit and underground operations at Venetia
Mine, Limpopo Province

DEA Ref Number (WML): 12/9/11/L43049/5

BECOME INVOLVED

De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine, is currently undertaking an Environmental Impact Assessment process in accordance with Section 45(1) of the **National Environmental Management: Waste Act (Act No. 59 of 2008) as amended**, and the associated regulations as published on 29 November 2013 (GN 921), to license the listed waste management activities for the proposed upgrades to the existing Waste Management Facility (WMF) and establishment of an area on the waste rock dump for the disposal of wood, and construction, demolition and building materials.

Location of Project

Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms.. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact **Tougheeda Aspeling** of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072

Email: VenetiaMineEIA@erm.com

**Postal Address: The Great Westerford, 2nd Floor, 240 Main Road,
Rondebosch, Cape Town**

Please also look at the Project Website for all documentation:

<http://www.erm.com/VenetiaMineEIA>

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended. The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

DE BEERS

KENNISGEWING VAN OMGEWINGSIM- PAKSTUDIEPROSES

Aansoek vir 'n lisensie vir afvalbestuur: Afval-
bestuur van alle afvalstrome vir die oopskag- en
ondergrondse bedrywighede by die Venetia-
diamantmyn, Limpopo-Provinsie

September 2014

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

WORD BETROKKE

De Beers Gekonsolideerde Myne (Edms.) Bpk. (DBCM), Venetia-diamantmyn, onderneem tans 'n omgewingsimpakstudieproses in ooreenstemming met Afdeling 45(1) van die **Wet op Nasionale Omgewingsbestuur: Afval (Wetnr. 59 van 2008)**, soos gewysig, asook die geassosieerde regulasies soos op 29 November 2013 (GN 921) gepubliseer is, ten einde die gelyste afvalbestuursaktiwiteite vir die voorgestelde opgraderings tot die bestaande afvalbestuursfasiliteit (ABF) te lisensieer, asook die bepaling van 'n gebied op die afvalklip-stortterrein vir die wegdoening van hout, konstruksie-, slopings- en boumateriale.

Ligging van die projek

Die Venetia-diamantmyn is op 'n 3 000 ha-gebied met mynregte op die Venetia 103MS-, Krone 104MS-, Rugen 105MS- en Drumsheugh 99MA-plase geleë. Die myn lê ongeveer 80 km wes van Musina en 40 km noord-oos van Alldays af, in die Limpopo-provinsie van Suid-Afrika. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord van Johannesburg af geleë.

Ten einde as 'n belanghebbende en geaffekteerde party (B&GP) te registreer, kommentaar te lewer op die voorgestelde projek asook die omgewingsimpakstudie of vir enige verdere inligting, skakel asseblief **Tougheeda Aspeling** van ERM by:

Tel: 021 681 5400, Fax: 086 5404 072

E-pos: VenetiaMineEIA@erm.com

**Posadres: The Great Westerford, 2^{de} Vloer, Hoofweg 240,
Rondebosch, Kaapstad**

Besoek gerus ook die projekwebtuiste vir alle dokumentasie:

<http://www.erm.com/VenetiaMineEIA>

Kennisgewing word hierdeur gegee van 'n openbare deelnameproses en die voorneme om vir omgewingsmagtiging aansoek te doen in terme van die OIS-regulasies van 18 Junie 2010 kragtens Afdeling 24(5) van die Wet op Nasionale Omgewingsbestuur, 1998 (Wetnr. 107 van 1998), soos gewysig. Die voorgestelde afvalbestuursaktiwiteite gee aanleiding tot beide Kategorie A- en B-aktiwiteite, soos gelys in GN 921 en vereis dus dat 'n volledige omvangbepalings- en OIS-proses onderneem word.

Dear Interested & Affected Party

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA)
PROCESS**

**Waste Management Licence Application: Waste Management of All
Waste Streams for the Open Pit and Underground Operations at
Venetia Mine, Limpopo Province**

De Beers Consolidated Mines (Pty) Ltd (DBCM) has appointed Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as the independent environmental consultants to undertake the Environmental Impact Assessment (EIA) process for the proposed Waste Management Licence Application for the listed activities associated with the upgrade of the Waste Management Facility (WMF) and establishing a designated area on the waste rock dump for the disposal of demolition and building materials at the Venetia Diamond Mine (Venetia), Limpopo Province.

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998) (NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) **as amended** of the intent to carry out the above-mentioned activities at the Venetia Mine to be authorised by the National Department of Environmental Affairs (DEA).

Project Locality

The Venetia Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

Venetia Mine is located within the Musina Local Municipality of the Vhembe District Municipality. The border with Botswana and Zimbabwe is situated approximately 30km to the north.

Project Description

Venetia Mine is an existing open pit mine and recently (July 2012) Environmental Authorisation (EA) for the development of underground workings and an amendment of the existing Environmental Management Plan (EMP). DBCM anticipates that the current open pit mining operations will cease between 2020 and 2023 subject to market conditions, production targets and open pit mining scenarios, after which only underground operations will continue.

The listed activities being applied for under this Waste Management Licence application include:

GN 921 Listing Category	Activity to be Licensed	Description
Waste Management Activities: Waste Management Facility (WMF)		
Category A, No. 2	The sorting, shredding, grinding, crushing, screening or baling of general waste at a facility that has an operational area in excess of 1,000m ² .	The sorting and baling of general waste: <ul style="list-style-type: none"> • Cardboard; • Paper; • Glass; • Cans; • Plastic; and • Non-recyclable domestic waste, including food waste.

GN 921 Listing Category	Activity to be Licensed	Description
Category A, No. 3	The recycling of general waste at a facility that has an operational area in excess of 500m ² , excluding recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Recycling and/or re-use of waste: Manual and/or mechanical sorting, dismantling, baling, stripping, shredding, crushing and compaction of any of the following wastes: Used screen panels, metals, conveyor belts, hard hats, safety boots, overalls, plastic water containers, blasting wire, electrical cabling, redundant furniture, windscreen glass, rubber and air filters.
Category A, No. 5	The recovery of waste including the refining, utilisation, or co-processing of waste in excess of 10 tons but less than 100 tons of general waste per day or in excess of 500kg but less than 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Recovery of wood (chipping and hammer mill).
Category A, No. 12	The construction of a facility for a waste management activity listed in Category A of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category A, No. 13	The expansion of a waste management activity listed in Category A or B of this Schedule which does not trigger an additional waste management activity in terms of this Schedule.	All construction and associated activities relating to the upgrade of the WMF.
Category B, No. 2	The reuse or recycling of hazardous waste in excess of 1 ton per day, excluding reuse or recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 3	The recovery of waste including the refining, utilisation, or co-processing of the waste at a facility that processes in excess of 100 tons of general waste per day or in excess of 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 4	The treatment of hazardous waste in excess of 1 ton per day calculated as a monthly average; using any form of treatment excluding the treatment of effluent, wastewater or sewage.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.

How can you make a comment?

The Draft Scoping Report is currently out for comment and will be available for a full 40 day comment period, from 26 September 2014 to 05 November 2014, as required under NEMWA and the relevant Regulations.

There are a number of ways in which interested and affected parties can find out more about the project and/ or make your comments:

1. Register as an Interested and Affected Party (I&AP) by contacting Tougheeda Aspeling of ERM (ERM Reference No. 212120) on:

Tel: 021 681 5400; Fax: 086 540 4072

Email: VenetiaMineEIA@erm.com

Postal Address: Postnet Suite 90 Private Bag X12 Tokai 7945

2. Comment on the Draft Scoping Report which will be available at:

Location	Contact	Location	Contact
Local Musina Municipal Library	(015) 534 6100	Musina Post Office	(015) 534 2003

ERM Verwysingsnommer: 0212120

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

Geagte belanghebbende en geaffekteerde party

KENNISGEWING VAN OMGEWINGSIMPAKSTUDIEPROSES (OIS)

Aansoek vir 'n lisensie vir afvalbestuur: Afvalbestuur van alle afvalstrome vir die oopskag- en ondergrondse bedrywighede by die Venetia-diamantmyn, Limpopo-provinsie

De Beers Gekonsolideerde Myne (Edms.) Bpk. (DBCM) het vir Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as die onafhanklike omgewingskonsultante aangewys om die omgewingsimpakstudieproses (OIS) vir die voorgestelde aansoek vir 'n lisensie vir afvalbestuur te onderneem, vir die gelyste aktiwiteite wat met die opgradering van die afvalbestuursfasiliteit (ABF) geassosieer word, asook die bepaling van 'n aangewese gebied op die afvalklipstortterrein vir die wegdoening van slopings- en boumateriale by die Venetia-diamantmyn (Venetia), Limpopo-provinsie.

Kennisgewing word hierdeur gegee in terme van die regulasies wat kragtens Afdeling 24 (5) van die Wet op Nasionale Omgewingsbestuur (Wetnr. 107 van 1998) (NEMA) uitgevaardig is, soos gewysig, en Afdeling 45 (1) van die Wet op Nasionale Omgewingsbestuur: Afval (Wetnr. 59 van 2008) (NEM:WA), **soos gewysig**, van die voorneme om die bogenoemde aktiwiteite by die Venetia-diamantmyn te onderneem wat deur die Nasionale Departement van Omgewingsake (DOS) goedgekeur moet word.

Projekligging

Die Venetia-diamantmyn is ongeveer 80 km wes vanaf Musina en 40 km noord-oos vanaf Alldays in die Limpopo-provinsie van Suid-Afrika geleë. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord vanaf Johannesburg geleë.

Die Venetia-diamantmyn is binne die Musina plaaslike munisipaliteit vanaf die Vhembe-distriksmunisipaliteit geleë. Die grens by Botswana en Zimbabwe is ongeveer 30 km na die noorde geleë.

Die mynregtegebied van Venetia beslaan ongeveer 3 000 ha en Tabel 1 lys al die plase wat deel vorm van die uitgevaardigde myngebied van Venetia:

Tabel 1: Uitgevaardigde myngebied (myn- en oppervlakteregte)

Plaas en gedeelte	Titelaktenommer
Deel 1 van die plaas Venetia 103MS	MS T2209/1981
Deel 2 van die plaas Venetia 103MS	MS T17958/1981
Deel 3 van die plaas Venetia 103MS	MS T15902/1981
Deel 4 van die plaas Venetia 103MS	MS T15902/1981
Deel 5 van die plaas Venetia 103MS	MS T15902/1981
Oorblywende grootte van Venetia 103MS	MS T15902/1981
Deel 1 van die plaas Krone 104MS	MS T7038/1983
Oorblywende grootte van Krone 104MS	MS T 17958/1981
Oorblywende grootte van Rugen 105MS	MS T34207/1989
Die plaas Drumsheugh 99MS	MS T73117/1990

Projekbeskrywing

Die Venetia-diamantmyn is 'n bestaande oopskagmyn en het onlangs (Julie 2012) omgewingsmagtiging (OM) vir die ontwikkeling van ondergrondse bedrywighede ontvang en 'n wysiging op die bestaande omgewingsbestuurplan (OBP). DBCM het die verwagting dat die huidige oopskagmynbedrywighede tussen 2020 en 2023 beëindig sal word, onderhewig aan marktoestande, produksietekens en oopskagmynvoorspellings, waarna slegs ondergrondse bedrywighede sal voortgaan.

Die gelyste aktiwiteite waarvoor daar aansoek gedoen word kragtens hierdie aansoek vir 'n lisensie vir afvalbestuur, sluit die volgende in:

GN 921 Lystingskategorie	Aktiwiteit vir lisensiering	Beskrywing
Afvalbestuursaktiwiteite: Afvalbestuursfasiliteit (ABF)		
Kategorie A, Nr. 2	Die sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 1,000m ² beslaan.	Die sortering en uitskepping van algemene afval: <ul style="list-style-type: none">• Karton;• Papier;• Glas;• Blikkies;• Plastiek; en• Nieherwinbare huislike afval, insluitende kosafval.

GN 921 Lystingskategorie	Aktiwiteit vir lisensiëring	Beskrywing
Kategorie A, Nr. 3	Die herwinning van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 500m ² beslaan, uitgesluit alle herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herwinning en/of herbenutting van afval: Handmatige en/of meganiese sortering, ont koppeling, uitskepping, stroping, versnippering, saampers en kompaktering van enige van die volgende afval: Gebruikte skermpanele, metale, vervoerbande, veiligheidshelms, veiligheidstewels, oorpakke, plastiese waterhouers, plofbare myndraad, elektriese kables, oortollige meubels, voorruitglas, rubber en lugfilters.
Kategorie A, Nr. 5	Die herstel/herwinning van afval insluitende die suiwing, benutting of gelyktydige verwerking van afval wat meer as 10 ton, maar minder as 100 ton algemene afval per dag is óf wat meer as 500 kg, maar minder as 1 ton gevaarlike afval per dag is, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herstel/herwinning van hout (snipper- en hamermeule).
Kategorie A, Nr. 12	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie A, Nr. 13	Die uitbreiding van 'n afvalbestuursaktiwiteit wat in Kategorie A of B van hierdie skedule gelys word, wat nie tot 'n addisionele afvalbestuursaktiwiteit aanleiding gee in terme van hierdie skedule nie.	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie B, Nr. 2	Die herbenutting of herwinning van gevaarlike afval wat meer as 1 ton per dag is, uitgesluit die herbenutting of herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite die natuurlike omgewing met die moontlike byvoeging van rioolslyk.

Hoe kan u kommentaar lewer?

Die konsep-omvangbepalingsverslag is tans vrygestel vir kommentaar en sal vir 'n kommentaartydperk van 'n volle 40 dae beskikbaar wees, vanaf 18 September 2014 tot 05 November 2014, soos vereis kragtens NEMWA asook die relevante regulasies.

Daar is verskeie maniere waarop belanghebbende en geaffekteerde partye meer kan uitvind omtrent die projek en/of kommentaar kan lewer:

1. Registreer as 'n belanghebbende en geaffekteerde party (B&GP) deur Tougheeda Aspeling van ERM (ERM Verwysingsnommer 212120) te skakel by:

Tel: 021 681 5400; Faks: 086 540 4072

E-pos: VenetiaMineEIA@erm.com

Posadres: Postnetsuite 90, Privaatsak X12, Tokai 7945

2. Kommentaar met betrekking tot die konsep-omvangbepalingsverslag wat by die volgende plekke beskikbaar sal wees:

Plek	Kontak	Plek	Kontak
Musina se plaaslike munisipale biblioteek	(015) 534 6100	Musina se poskantoor	(015) 534 2003
Blouberg se munisipaliteit Alldays-satellietbiblioteek	(015) 5751144	Musina Spar	(015) 534 0750
Mapungubwe se ingangshek/besoekersentrum	(015) 534 7923/24	Gemeenskapsaal – Nancefield	(015) 534 6100
Venetia-ontvangs	(015) 575 2710	Pontdrift se polisiestasie	(015) 5759908
ERM-projekwebtuiste	http://www.erm.com/VenetiaMineEIA	Musina se munisipale kantore	(015) 534 6181

Maak asseblief seker dat alle kommentaar ten opsigte van die konsep-omvangbepalingsverslag die ERM-kantore teen 05 November 2014 bereik, ten einde alle bogenoemde in te sluit.

Ons sien uit na u voortgesette deelname aan hierdie projek.

Die uwe

**NOTICE OF ENVIRONMENTAL IMPACT
ASSESSMENT PROCESS**

DEA Ref Number (WML): 12/9/11/L43049/5

**Waste Management Licence Application: Waste
management of all waste streams for the open pit
and underground operations at the
Venetia Mine, Limpopo Province**

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998)(NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) as amended, regarding the proposed listed activities associated with the upgrade of the Waste Management Facility and formalisation of disposal areas on the Waste Rock Dump for wood and construction, demolition and Building materials at the De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine.

ERM Southern Africa (Pty) Ltd has been appointed as the Independent Environmental Assessment Practitioner (EAP) to undertake the Environmental Impact Assessment (EIA) process as per the aforementioned EIA regulations.

Location of Project
Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact Tougheeda Aspeling of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072
Email: VenetiaMineEIA@erm.com
**Postal Address: The Great Westerford, 2nd Floor, 240 Main Road,
Rondebosch, Cape Town**

Refer to the Project Website for all documentation:
<http://www.erm.com/VenetiaMineEIA>

Please quote the following reference numbers on all correspondence:
DEA Ref: 12/9/11/L43049/5; ERM Ref: 0212120

Please note that the Draft Scoping Report (DSR) is currently available for public comment. Kindly register as an I&AP or refer to the project website for details on the availability of the DSR and for regular updates throughout the EIA process. Please ensure that all comments on the DSR reach ERM by 05 November 2014.

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended.
The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

Advertisements were placed in the Capricorn Voice on the 17 September 2014, Limpopo Mirror on the 19 September 2014, Northern Gazette on the 19 September 2014, Zoutspansberger Nuus on the 19 September 2014 and the Sowetan News on the 19 September 2014.

EMAKHAZENI LOCAL MUNICIPALITY

EMAKHAZENI LOCAL MUNICIPALITY (ELM) HEREBY INVITES TENDERS FOR THE FOLLOWING PROJECT:

Tender No	Description	Closing Date	Compulsory Briefing	Evaluation Criteria	Requirements
ELM14/04/22	Emthonjeni Township: Provision of Water Borne Sanitation for 800 Stands Phase1: Emthonjeni Ext 4 & Enkanini - (114 Stands)	10 October 2014 at 12H00	26 September 2014 at Beyer's Naude Hall, 25 Scheepers Street, Belfast 1100, at 11:00	Functionality, Price and Preference (90/10)	CIDB Grade 3CE or higher
ELM14/04/23	Emthonjeni Township: Provision of Water Reticulation for 800 Stands Phase1: Emthonjeni Ext 4 & Enkanini - (114 Stands)	10 October 2014 at 12H00	26 September 2014 at Beyer's Naude Hall, 25 Scheepers Street, Belfast 1100, at 11:00	Functionality, Price and Preference (90/10)	CIDB Grade 3CE or higher

THE FOLLOWING MUST BE INCLUDED WITH THE TENDER FOR PRE-QUALIFICATION PURPOSES:

- Valid Original Tax Clearance Certificate
- Certified Copy of a company registration certificate
- Certified Identity documents of all share holders in the company
- Certified copy of BBBEE Certificate
- Provide a list of reference for similar work done

The Preferential Procurement Policy Framework Act, (Act 6 of 2000), The Supply Chain Management Policy of the Emakhaseni Local Municipality and other enabling legislation will be applied in the evaluation and adjudication process.

- Tenders will be evaluated on the 90/10 basis in accordance with the Preferential Procurement Policy Framework Act, where the 90 weighing will be for price and the 10 weighing will be for preference.

Tender documents will be available at the Municipality offices during office hours from the 26th of September 2014 upon the payment of a non-refundable deposit fee of R350.00 per tender document. Only cash or bank guaranteed cheques made payable to the Emakhaseni Local Municipality will be accepted.

Complete tenders must be sealed in an envelope clearly marked "WITH THE NAME AND RELEVANT PROJECT REFERENCE NUMBER" and should be deposited in the Tender Box at the Municipal Offices which is situated in the Supply Chain Unit not later than 12h00 on the 10th OCTOBER 2014.

Tenders will be evaluated in terms of the Supply Chain Management Policy of the Emakhaseni Local Municipality. The Municipality will not be obliged to accept the lowest or any tender. Tenders shall remain valid for a period of 90 days from the closing date and no late, faxed, e-mailed or other form of tender will be accepted.

All enquiries can be directed to: Mr. M. Mashilo, at tel: (013) 253 7660 during office hours.

TENDER NOTICE AND INVITATION TO TENDER

The Gert Sibande District Municipality invites expressions of interest from suitably qualified service providers to provide transport of Field Data Capturers for the GSDM GIS – Field Data Capture Projects in different local municipalities, as mentioned.

Project No: GSDM 68/2014
Expression of Interest from suitably qualified Service Providers to Provide Transport of Field Data Capturers for the GSDM GIS – Field Data Capture Projects in Mkhondo Local Municipality
A compulsory briefing session will be held on 30 September 2014 at 10:00 at the Mkhondo Local Municipal Offices in Piet Retief.

Project No: GSDM 91/2014
Expression of Interest from suitably qualified Service Providers to Provide Transport of Field Data Capturers for the GSDM GIS – Field Data Capture Projects in Msukaligwa Local Municipality
A compulsory briefing session will be held on 1 October 2014 at 10:00 at the Msukaligwa Local Municipal Offices in Ermelo.

Project No: GSDM 92/2014
Expression of Interest from suitably qualified Service Providers to Provide Transport of Field Data Capturers for the GSDM GIS – Field Data Capture Projects in Lekwa Local Municipality
A compulsory briefing session will be held on 26 September 2014 at 10:00 at the Lekwa Local Municipal Offices in Standerton.

Project No: GSDM 93/2014
Expression of Interest from suitably qualified Service Providers to Provide Transport of Field Data Capturers for the GSDM GIS – Field Data Capture Projects in Dipaleseng Local Municipality
A compulsory briefing session will be held on 29 September 2014 at 10:00 at the Dipaleseng Local Municipal Offices in Balfour.

Preference will be given to tenderers who will enhance the local and regional economy (local contractors) and who promote Broad-based Black Economic Empowerment (B-BBEE). Preference will also be given to tenderers who are situated within the Gert Sibande District Municipality (GSDM).

The physical address for collection of tender documents is the Gert Sibande District Municipality's offices, c/o Joubert and Oosthuise Streets, Ermelo 2350 in the office of Ms N Zwane, Room 1W314 (tel. (017) 801-7100). Documents may be collected as from 22 September 2014 during working hours (from 07:30 to 16:00 Monday to Thursday, and 07:30 to 13:30 on Fridays).

A non-refundable tender deposit of R250.00 (payable in cash or by bank guaranteed cheque made out in favour of the employer: "Gert Sibande District Municipality") is required upon collection of the tender documents.

Queries relating to the issue of this document and administrative matters may be addressed to Mr RD Jacobs at fax: (017) 811-1207, tel. (017) 801-7073 or e-mail: rynoj@gsibande.gov.za

The District Municipality is not obliged to appoint the tenderer with the lowest price but will consider the tenderer with the highest points in terms of the set evaluation criteria.

Duly completed tenders must be sealed in an envelope clearly marked with the tender description and project number and are to be deposited in the tender box at the Gert Sibande District Municipality, c/o Joubert and Oosthuise Streets, Ermelo 2350, by no later than 12:00 on 10 October 2014, where they will be opened in public.

The closing time and date for receipt of tenders is 12:00 on Friday, 10 October 2014. Telegraphic, telephonic, telex, facsimile, e-mail and/or late tenders will not be accepted.

Tenders will be adjudicated in terms of the Gert Sibande Procurement Policy and the Preferential Procurement Policy Framework Act, Act No 5 of 2000.

Requirements for sealing, addressing, delivery, opening and assessment of tenders are stated in the Tender Document.

Mr CA Habile - Municipal Manager

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
DEA Ref Number (WML): 12/9/11/L43049/5

Waste Management Licence Application: Waste management of all waste streams for the open pit and underground operations at the Venetia Mine, Limpopo Province

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998)(NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) as amended, regarding the proposed listed activities associated with the upgrade of the Waste Management Facility and formalisation of disposal areas on the Waste Rock Dump for wood and construction, demolition and Building materials at the De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine.

ERM Southern Africa (Pty) Ltd has been appointed as the Independent Environmental Assessment Practitioner (EAP) to undertake the Environmental Impact Assessment (EIA) process as per the aforementioned EIA regulations.

Location of Project
Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Ponderdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact Tougheeda Aspeling of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072
Email: **VenetiaMineEIA@erm.com**
Postal Address: **The Great Westerdorf, 2nd Floor, 240 Main Road, Rondebosch, Cape Town**

Refer to the Project Website for all documentation:
http://www.erm.com/VenetiaMineEIA

Please quote the following reference numbers on all correspondence:
DEA Ref: 12/9/11/L43049/5; ERM Ref: 0212120

Please note that the Draft Scoping Report (DSR) is currently available for public comment. Kindly register as an I&AP or refer to the project website for details on the availability of the DSR and for regular updates throughout the EIA process. Please ensure that all comments on the DSR reach ERM by 05 November 2014.

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended.
The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

Ankura Academy

athletes won 28 medals at an athletic meeting!

Wessel (3 medals), Karlien (2 medals) and Marissa (2 medals) de Coning

Wessel (Gold: 3000m, 1500m & 800m)
 Karlien (Gold: 1500m & 800m)

News from Venetia Mine

Trainee firefighter a top operator

Alice Mandiwana is a top-performing female operator for De Beers at Venetia Mine, with an average rate of 237 tonnes hauled per operating hour.

She ranks in the top seven operators on the mine and is the female operator with the highest net operating hours (NOH) at the time of publication. This means that she is highly efficient and only spends the minimum amount of time idling the earth moving vehicle (EMV) as a result of standbys and delays. Whereas the average operator at Venetia has moved approximately 78 loads to date this year, Alice has hauled 113 loads.

Alice loves working in the mining industry. She enjoys the diverse environment and is energised by the many opportunities for development and leadership. However, mining was not always her dream. She started out as a trainee firefighter desperate for a job and a chance to put bread on the table. After months of unsuccessful job hunting, she made application for the position of operator at De Beers and has never looked back.

Alice's role sees her re-

sponsible for the loading and hauling of kimberlite ore and waste and its offloading at either the waste dumps or the primary crusher. "When I tell people that I drive a CAT 793 truck that can hold up to 234 tonnes, they are disbelieving. They ask me if it is difficult for a woman to control a large machine like that, but I tell them, it's not hard - it's easy!"

The first time Alice entered a mine was after her operator training. She was unprepared for the sheer scale of operations, and admits that she was shocked by the size of the tyres and a little intimidated to think that she would be driving such enormous equipment. Two years later, Alice drives one of the largest trucks at Venetia Mine and seems to believe that 'bigger is better.' Not one to shy away from a challenge, Alice is eager for train-

ing and enjoys learning how to operate other machines. In an environment where people can be superstitious around which roles a woman should and should not undertake, Alice chooses to ignore these folk tales. She says, "As women we need to believe in ourselves and to take every opportunity to be trained".

As the primary breadwinner in her family, Alice takes her career very seriously and is

passionate about providing for her husband, son (3) and daughter (8). "I never would have dreamt that my husband would lose his job. He is the man I love and the father of my children, and it is a privilege to have the kind of job where I can take care of him and my family until he gets back on his feet," says Alice.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
DEA Ref Number (WML): 12/9/11/L43049/5
Waste Management Licence Application: Waste management of all waste streams for the open pit and underground operations at the Venetia Mine, Limpopo Province

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998)(NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) as amended, regarding the proposed listed activities associated with the upgrade of the Waste Management Facility and formalisation of disposal areas on the Waste Rock Dump for wood and construction, demolition and Building materials at the De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine.

ERM Southern Africa (Pty) Ltd has been appointed as the Independent Environmental Assessment Practitioner (EAP) to undertake the Environmental Impact Assessment (EIA) process as per the aforementioned EIA regulations.

Location of Project

Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact Tougheeda Aspel of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072
Email: VenetiaMineEIA@erm.com
Postal Address: The Great Westerford, 2nd Floor, 240 Main Road, Rondebosch, Cape Town

Refer to the Project Website for all documentation:
<http://www.erm.com/VenetiaMineEIA>

Please quote the following reference numbers on all correspondence:
DEA Ref: 12/9/11/L43049/5; ERM Ref: 0212120

Please note that the Draft Scoping Report (DSR) is currently available for public comment. Kindly register as an I&AP or refer to the project website for details on the availability of the DSR and for regular updates throughout the EIA process. Please ensure that all comments on the DSR reach ERM by 05 November 2014.

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended.

The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

Nkosiyazi Sibanda again wins the Two Countries Marathon

The annual Two Countries Marathon from Zimbabwe to Musina was won by Zimbabwean Nkosiyazi Sibanda once again.

It was his fifth victory in this prestigious race and he finished the race in 2:25:57. Last year, he won the race in 2:27:00.

Lionel Muchena of Nedbank Athletics Club finished in second position in 2:28:12 and Lucas Nonyana third in 2:29:59.

Another Zimbabwean, Tawapo Bhiri, won the ladies' race in 3:12:42. Last year, the winner of the ladies' race won in 3:09:32. The second position went to veteran Jane Mudau (3:23:46), who also won the masters' race, and Azwindini Lukhwareni finished in third place, in 3:30:36.

The winner in the men's half-marathon was Gilbert Mutandiro from Zimbabwe, who finished the race in 1:05:36. Rapson Chigara of Nedbank finished second (1:06:51) and Givemore Mudzinganyama third in 1:11:17. Samukeliso Moyo of Mr Price Athletics Club won the half-marathon for ladies in 1:23:16, with Muchaneta Gwata second in 1:29:43.

Thomas Ngobeni of Arangwa Athletic Club won the half-marathon for masters in 1:21:14 and Elias Gizane was the first grand master home in 2:58:34.

The winners of the marathon (men and women) went home with R3 000 each. The top four athletes of the whole event shared prize money of

R73 000. The race was sponsored by the Musina Municipality.

All the athletes runners who finished the race went home with medals and T-shirts. The mayor

of Musina, Cllr Mihloti Ramoada, congratulated all the participants and added that they were working hard to ensure that next year's race would "be bigger and better".

Jane Mudau, photographed before she crossed the finish line. She finished first in the masters' division for women and second in the marathon for women.

The king of the Two Countries Marathon, Nkosiyazi Sibanda.

Tawapo Bhiri, the winner of the marathon for women.

The winners of the half-marathon for men: Rapson Chigara (2nd), Gilbert Mutandiro (1st) and Givemore Mudzinganyama (3rd).

Thomas Ngobeni of Arangwa won the masters' division of the half-marathon.

Invite

Join the fun walk

The Sanco of Tshithuthuni in Nzhelele is inviting members of the public to attend a four km fun walk next Wednesday (24 September).

The initiative is aimed at emphasising the importance of a healthy lifestyle to the elders in Tshithuthuni village. The chairperson of the local Sanco, Mr Muraida Netshivulana, said the initiative would help to curb ailments such as high blood pressure, stress, asthma, diabetes and many other diseases. This is the second fun walk, following the successful one held on 17 August.

The fun walk will start at 05:30 from the Siloam Road to the Tshithuthuni Royal Kraal. "Our elders are always sitting at home doing nothing. We want to influence them to exercise and look after their health," said Netshivulana.

R16 million to upgrade local sports facilities

The Makhado Local Municipality has put aside R10 million to upgrade the sport centre at the Vuwani Mandani grounds. A further R6 million has been allocated for the renovation of the Bungeni Stadium.

This was revealed by Mayor David Mutavhatsindi last Thursday, when he official launched the two projects at Vuwani and Bungeni.

The upgrade of the sports centre includes the improving a sports field, change rooms, caretaker room and grandstand. "Residents from the village and the other surrounding villages, mostly the youth, are going to benefit a lot. In the past, athletes going for camps used to sleep under trying conditions, but this will be a thing of the past as the different halls can be utilized as sleeping quarters," Mutavhatsindi added.

He also mentioned that, when finished, it will be one of the best

centres for sports development and some of the small premier soccer league games will be played there.

"This will also benefit the locals economically," he added.

The president of the Makhado LFA, Mr Joseph Maphaha, applauded the municipality. He acknowledged that are

serious challenges in relation to sporting infrastructure in the area.

"We do not have enough playing fields and indoor sporting facilities. Despite all this, we are happy that the municipality continues to produce professional sports personalities who put us on the world map," he said.

During the launch of the Vuwani sport centre are, from left to right, Cllr Shonisani Sinyosi, Mayor David Mutavhatsindi, community members Mr Tlangelani Mahange, the engineer (second from right), and Cllr Dzawe Ratshikuni.

Meeting Attendance Register
Presentation Slides

Meeting minutes

Stephanie Gopaul and Alta van Dyk welcomed the Interested and Affected Parties (I&APs) to the public meeting and introduced the Project Management team. The team members are as follows:

- Gavin Anderson- Environmental Manager (De Beers)
- Chantelle Du Plessis- (De Beers)
- Tracey Jacquemin- Environmental Manager VUP and Project Manager
- Alta Van Dyke- Water Use Licence Environmental Assessment Practitioner (Alta van Dyk Environmental Consultants)
- Stephanie Gopaul- Waste Management License Environmental Assessment Practitioner (Environmental Resources Management)

A detailed presentation was provided to the community highlighting the following:

- DBCM Strategy House (business principles and foundational values)
- The way we behave (DCBM core principles and values)
- Venetia Mine – Historical Overview
- Overview of operations at Venetia Mine
- National Water Act, 1998 (Act 36 of 1998)- Water Use License Application
- Properties where water uses occur on the mine
- Section 21(a) and 21(b) Water Uses
- Mining Area - Orientation of Water Uses – S21(b) and (g)
- Existing River Diversion - Section 21 (c) and (i) Water Uses
- Amended Use - Consolidated Fine Residue Deposit (FRD) with Buttress – S21(g)
- New Use - Pollution Control Dam 1 (PCD 1); 2 (PCD 2) and 3 (PCD 3) – S21(g)
- New Use - Sewerage Package Treatment Plants
- Existing Use - Waste Management Facility
- Objectives of the Proposed Waste Management Activities
- Waste Generating Areas
- Layout of the Waste Management Facility
- Existing Waste Rock Dumps on Site
- Waste Management Activities Requiring Authorisation
- EIA Process and Listed Activities
- Potential Impacts
- Way Forward
- EIA Amendment

The Interested and Affected Parties (I&APs) were taken through the posters and the Water Use License and Waste Management License processes were explained in the context of the site, current operations, planned activities and applicable legislative requirements.

Questions raised are recorded in the Comments and Responses Report and the I&APs have been included onto the Project database for future consultation.

Meeting minutes

	Commentator
Comments received during the Public Meeting	
1. What will happen to non-hazardous waste? <i>Response: The non-hazardous waste will be separated and stored in the Waste Management Facility. A certified contractor will remove all waste streams that are to be disposed of off- site.</i>	Mr Sakala Stephanie Gopaul
2. What kind of hazardous liquids will be stored and where? <i>Response: The different kinds of hazardous waste which will be stored include: petrol, diesel, etc. These will be stored in large containers. When transported offsite, liquids will not be taken out of containers- this is to prevent leakage or spillage of hazardous liquids.</i>	Mr Sakala Stephanie Gopaul
3. Other means of notification which should be used to inform the general public about the proposed project should include radio. In most instances, I&APs do not take note of an advert placed in the newspaper and site notices. <i>Response: Comment noted and Mr Sakala thanked for his input.</i>	Mr Sakala
4. Will there be employment opportunities for the local community? <i>Response: No new labour is anticipated (from the Musina community) at this stage as De Beers will continue using the appointed contractors and staff compliment.</i>	Mr. Zephaniah Maphane Stephanie Gopaul
5. What effect will this process have on our water resources? <i>Response: There is a storm water management plan in place and this will be revised to suit the revised layout of the Waste Management Facility (WMF) if needed. The Environmental Impact Assessment will rate the significance of any potential impacts to water resources and provide appropriate management/ mitigation measures.</i>	Mr. Zephaniah Maphane Stephanie Gopaul
6. What are the health risks to the community? <i>Response: No direct health risks to the community are anticipated.</i>	Rev M.M Maiwashe
7. How will you ensure that the people's health is not adversely affected? <i>Response: No direct health risks to the community are anticipated. The formalisation of the WMF is a strategy to improve on the current layout thereof; the aim of which is to minimise potential risks and not create them.</i>	Rhoda Mavayala Stephanie Gopaul
8. What will happen to the existing waste management facility? <i>Response: It will be re-designed and upgraded accordingly.</i>	Ms. Daisy Sakala Stephanie Gopaul
9. Have all specialist studies been conducted and signed off?	Ms. Daisy Sakala

Meeting minutes

	<i>Response: Various specialist studies have already been conducted and will be presented in the EIA for public review.</i>	Stephanie Gopaul
10.	Is there a safety and emergency response plan in place for trucks transporting waste from the Mine? <i>Response: There is an emergency response plan in place and will be available in the EIA Report.</i>	Ms Moraka Stephanie Gopaul
11.	Who will be the watchdog? <i>Response: De Beers will be responsible for monitoring and adherence to the Environmental Management Plan and Environmental Authorisation. There are national authorities that also provide a "watchdog" function.</i>	Mrs. Monika Singo
12.	Does the Municipality have any authority in this application? <i>Response: The Municipality has authority with regards to by-laws, rates and taxes, and approval of building plans. The municipality will also provide comments on the Scoping Report, EIA and other documents</i>	Rev. M.M Maiwashe
13.	Is De Beers –Venetia Mine commitment to social development in the area <i>ad-hoc</i> or long-term? <i>Response: De Beers is committed to a long term development plan.</i>	Ms. Daisy Sakala Alta van Dyk

Stephanie Gopaul thanked the community for attending the meeting and adjourned the meeting at 12:30 pm.

DE BEERS CONSOLIDATED MINES (Pty) Ltd VENETIA MINE	
16 July 2014	

Waste Permit Application		
24 July 2014	14h00	Emperors Palace
Meeting called by	Lourens de Villiers / Alta van Dyk	
Type of meeting	Clarification – Waste Management Practices and approvals required by Venetia Mine	
Facilitator	Lourens de Villiers	
Note taker	Alta van Dyk	
Attendees	Alta van Dyk (AvD Environmental) – AvD Lourens de Villiers (Shangoni) - LdV Tshepo Maselela (LEDET) - TM	
Apologies	Tracey Jacquemin	
	All	
Discussion	Discussion around the disposal of building rubble and waste tyres onto the Waste Rock Dump	
	<ul style="list-style-type: none"> • The storage of waste tyres is deemed a Category C waste and only requires registration. • Permanent disposal of waste tyres onto the Waste Rock dump will require formalization – Category A or B application. • The laws are very clear. May not dispose of a full tyre. • Demolition waste – disposal – Must design the area and include the management of the area in the EMP. Letter to DMR due to the impact on the financial provision during closure. As from the 2nd of September the DMR will have the authority with the management of the waste in terms of the Waste Act as per the empowering legislation. • Hazardous waste is managed by the DEA on a national level and general waste is managed by the province (LEDET). • Should an application be lodged on the national level, DEA will request comments and inputs from the provincial level. • The process followed at Venetia has two components: <ul style="list-style-type: none"> ○ Waste Permit Process (Legal process undertaken by ERM); and ○ Waste Management Strategy (Documents compiled by Shangoni) • LEDET recommends that the above two processes should not be managed as one. • The disposal of waste is a listed activity. If you combine the process you allow national to authorise all and the province is not involved. • There is no activity that can be seen as once-off – the activity remains the disposal of waste. • Disposal = process to be followed. • One can propose interventions as to address the problems. • Section 28 perspective – not a problem with a once-off disposal facility. • Nothing stops Venetia to split the application – general waste to province and hazardous waste to national. By combining these it limits the documents to national. • Tyres are a listed activity – Province – Tyre Regulations apply. • National is not the regulatory for general waste. • National <ul style="list-style-type: none"> ○ Stockpiled Areas – 2-3 years to sort out ○ Registration as per the Waste Tyre Regulations ○ Does not include category C ○ Deals with hazardous waste – as the waste is generated the responsible person must make a plan. • Provincial <ul style="list-style-type: none"> ○ Storage of tyres – category C – Historical only ○ Disposal – what is going to happen? • The difference is how it is going to be managed. How is the stockpile managed? • The competence is at national level – the province cannot say “yes” or “no”. Can’t allow for the disposal of a whole tyre. Must be in quarters. • National cannot give exemption from the Norms and Standards. The tyres will need to be cut into quarters. Currently Venetia does not have a machine to cut the tyres. • The stockpile area needs to meet the storage requirements i.t.o the waste tyre regulations. • When in doubt the stringent one always applies. • Venetia needs to decide what Venetia wants – storage versus disposal. • Challenges at Venetia are the internal security aspects. Processes are made easier when security rules come in. • At Venetia there are already a significant amount of changes taking place in the way waste is managed on site. These include interventions such as not to purchase wooden pellets any longer but to replace these with something else. • Issue at the Red Area with the managed of waste due to security reasons. • From a reasonable man’s perspective Venetia could have disposed without the authorities knowing. Therefore the province could have authorised once-off into a facility that could not compromise the environment. If processes are combined it changes the process. 	

Minutes

DE BEERS CONSOLIDATED MINES (Pty) Ltd VENETIA MINE	
16 July 2014	

<ul style="list-style-type: none">• Licence is going to be long term.• Bio-remediation – land remediation route or process route. Don't combine the two processes.• Don't apply for licences for a once-off activity – based on the design approve the current conditions.• Once at national level it can only move to the province with recommendation. Tshepo commit to discuss the matter with Lucas Mahlangu from national.• Cat A = Expansion and Cat B = Construction.• Waste tyre generation will always be high in the area. With moving to the underground, the volumes will reduce.• Demarcated Area<ul style="list-style-type: none">○ Meet the Tyre Regulations○ Norms and Standards○ Fire Abatement• Will the tyres on the waste rock dump become a problem with rehabilitation – No?• Must allow ourselves to be led and see how DEA advise us.• Why on the waste rock dump? – Availability of space on site.• Ask for a written opinion from DEA and then obtain a legal opinion.• DEA = competent authority• LDEDET = commenting authority• DWA and DMR also provides input• Make a decision around the disposal of the tyres – new or historical?• Tyres still remain within the Red Area – how will this be handled? Need to manage the new tyres as the historical tyres will be stockpiled. If a supplier takes the tyres it form part of the management system and are recorded as such.	
Recommendation	
<ul style="list-style-type: none">• Recommendation – for the waste tyres that are currently on site apply for a stockpile area. Define this area and make sure that it complies with the Tyre Regulations.• Placing of the tyres within an area on the waste rock dump is deemed disposal and will not be approved.

Type of meeting	Clarification – Waste Management Practices and approvals required by Venetia Mine	
Facilitator	Alta van Dyk	
Note taker	Alta van Dyk	
Attendees	Alta van Dyk (AvD Environmental) – AvD Lucas Mahlangu (DEA) - LM	
Apologies	Tracey Jacquemin	
	All	
Discussion	Inclusion of Mine Residue Waste	
	<ul style="list-style-type: none"> Reference is made to the new Regulations as published in terms of the National Environmental Management Waste Act which includes Mine Residue Deposits and stockpiles as activities which are regulated through a waste permit. Venetia has submitted an Application Form to the Department and requires clarification in regards to the residue activities as to make an informed decision on whether to include these. DEA confirmed that once the Regulations have been enacted the timeframes will become applicable. DEA anticipates that the management of Mine Residue in terms of the National Environmental Management Waste Act will be administered by the Department of Mineral Resources (DMR) as part of the process followed in terms of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA). To give effect to this empowering legislation, the DEA is currently drafting a guideline document to be published before the 2nd of September 2014 when the new Regulations will be enacted. The next workshop is scheduled for the 25th of July in an effort to finalise the guideline document. At this stage, it seems that should a mine have an approved Mining Right and an approved EMP, the mine will be exempted from the application process. This in effect will mean that only new mine residue facilities will require an application in terms of the Waste Act. Therefore not all the waste streams will be authorised by DEA. Therefore it is anticipated that the DMR will issue the approval for waste management related activities in mining areas. DMR may exempt Venetia in this regard as Venetia has an approved EMP. 	
Discussion	Disposal onto waste rock dumps	
	<ul style="list-style-type: none"> DEA does not view the waste rock dumps as waste as it has the same characteristics as the material present on site. It is merely referred to as waste as it has become un-wanted. DEA does not see the disposal of waste tyres onto the waste rock dump as a problem as the material is non-reactive. Venetia must still however comply with the Tyre regulations. Must proof that a fire hazard can be managed on the site. The Minimum Requirements of 1998 were not enforceable. The Norms and Standards are published in terms of Regulation 634, 635 and 636 of 23 August 2013 is current deemed as law and has to be complied with. DWA is currently using these Regulations as it is the only legal tool available. The storage of tyres is a Category C for which only registration is required. Temporary storage is only once-off. The moment it becomes a recurring event on the same spot, it is no longer temporary but become continuous storage. Venetia must apply for a dedicated waste disposal area should they wish to permanently dispose of the waste tyres onto the waste rock dump. Then the application is no longer for a category C but either a Category A or B in which instance the Tyre Regulations will apply. 	
Discussion	Additional Specialist Studies	
	<ul style="list-style-type: none"> For the Waste Permit Application currently in the process, Venetia may request exemption from the specialist studies to be undertaken based on the fact that these studies were done not so long ago in support of the MPRDA Section 102 Amendment process. It is recommended that once the Draft Scoping Report is available, a consultation meeting be scheduled with DEA in order to officially request the use of the existing reports as Venetia is currently operating lawfully. It is recommended that a dedicated area be identified on the waste rock dumps should this area be used for disposal rather than to have a site wide disposal consideration.
