WASTE MANAGEMENT LICENCE APPLICATION FOR THE MANAGEMENT OF ALL WASTE STREAMS FOR THE OPEN PIT AND UNDERGROUND OPERATIONS AT VENETIA MINE, LIMPOPO PROVINCE

DEA Ref Number (WML): 12/9/11/L43049/5

BACKGROUND TO THE EIA

De Beers Consolidated Mines (Pty) Ltd (DBCM) has appointed Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as the independent environmental consultants to undertake the Scoping and Environmental Impact Assessment (EIA) process for the proposed Waste Management Licence Application for the listed activities associated with the upgrade of the Waste Management Facility (WMF) and tyres of a designated area on the waste rock dump for the disposal of demolition and building materials, at Venetia Mine (Venetia), Limpopo Province.

PURPOSE OF THIS DOCUMENT

The purpose of this Background Information Document (BID) is to provide Interested and Affected Parties (I&APs) with background information about the proposed project and to outline the EIA process to be undertaken. Further this document intends to inform I&APs on how to participate in the EIA Process. You are encouraged to register as an I&AP so that you can be kept informed about the project throughout the process.

Further documents will be available at various stages during the EIA process to provide I&APs with detailed information about the project and there will be further opportunities to ask questions, raise issues of concern and give suggestions to enhance benefits of the Project. Stakeholders will also be given the opportunity to verify that their issues have been considered and to comment on any study findings. Thereafter, the findings, along with your comments will be submitted to the competent authority, namely the national Department of Environmental Affairs (DEA), for consideration. Please note that the Draft Scoping Report is available for comment at the following locations:

Register as an I&AP

Environmental Resources Management Southern Africa (Pty) Ltd (ERM) has been appointed by De Beers Consolidated Mines (Pty) Ltd to undertake the Environmental Impact Assessment Process (EIA) and associated Public Participation Process.

You are invited to register as an I&AP and comment on this project. Please complete the enclosed registration/comment sheet and/or contact:

PROJECT DESCRIPTION

Project Locality

Venetia Mine is situated on the farm Venetia 103MS , Krone 104MS, Rugen 105MS, Drumsheugh 99MS, which lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

The mine is located within the Musina Local Municipality of the Vhembe District Municipality. The border with Botswana and Zimbabwe is situated approximately 30km to the north.

Figure 1. Venetia Mine Locality

Waste Management Licence (WML) Application

Project Background

Venetia Mine is an existing open pit mine that recently (October 2012) received an Environmental Authorisation (EA) and positive record of decision from DMR from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) for the development of underground workings and an amendment of the existing Environmental Management Plan (EMP). Open pit mining operations are expected to cease between 2020 and 2023, after which only underground operations will continue. The Waste Management Licence application is being undertaken to license the listed activities associated with the upgrading of the Waste Management Facility (WMF) and designated disposal area for construction, demolition and building materials from mining operations in order to meet the legislative requirements in terms of the National Environmental Management: Waste Act (Act 59 of 2008).

Need and Desirability of the Project

Current waste management activities and facilities at Venetia can be revised and upgraded and once more formalised (as per the proposed project scope), the on and off-site management of waste will become more streamlined. The proposed waste management activities listed in GN R.921 include:

- construction and expansion of a facility for waste management;
- sorting, shredding, grinding, crushing, screening or bailing of general waste;
- recycling of general waste;
- recovery of waste including the refining, utilisation, or co-processing of waste;
- reuse or recycling of hazardous waste;
- treatment of hazardous waste; and
- disposal of inert waste to landfill.

The key objective of the Integrated Waste Licensing application for Venetia Mine is to reach a state of full compliance in respect of the various waste management activities as soon as is practically possible.

The Waste Management Facility (WMF)

The WMF (previously referred to as the salvage yard) is an area currently used to collect waste for sorting, laydown, re-use, recycling and screening before final disposal. General as well as hazardous wastes are received, stored, sorted, recycled and finally (where possible) transferred from the mine for final disposal. Currently, almost all waste streams collected at the mine pass through this facility.

The WMF is an existing facility but expansion is proposed (as per this application) and Venetia Mine seeks to formalise this area.

Area on Waste Rock Dump for the disposal of demolition and building materials

Although this application is not for any mineral waste, it is proposed that various types of waste be disposed of within the existing Waste Rock Dumps (WRD) due to various difficulties with removing these wastes from site. The types of waste proposed to be disposed of on the WRD include earth moving vehicle (EMV) tyres, light duty vehicle (LDV) waste tyres, building rubble, demolition and construction wastes and wooden waste.

THE ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

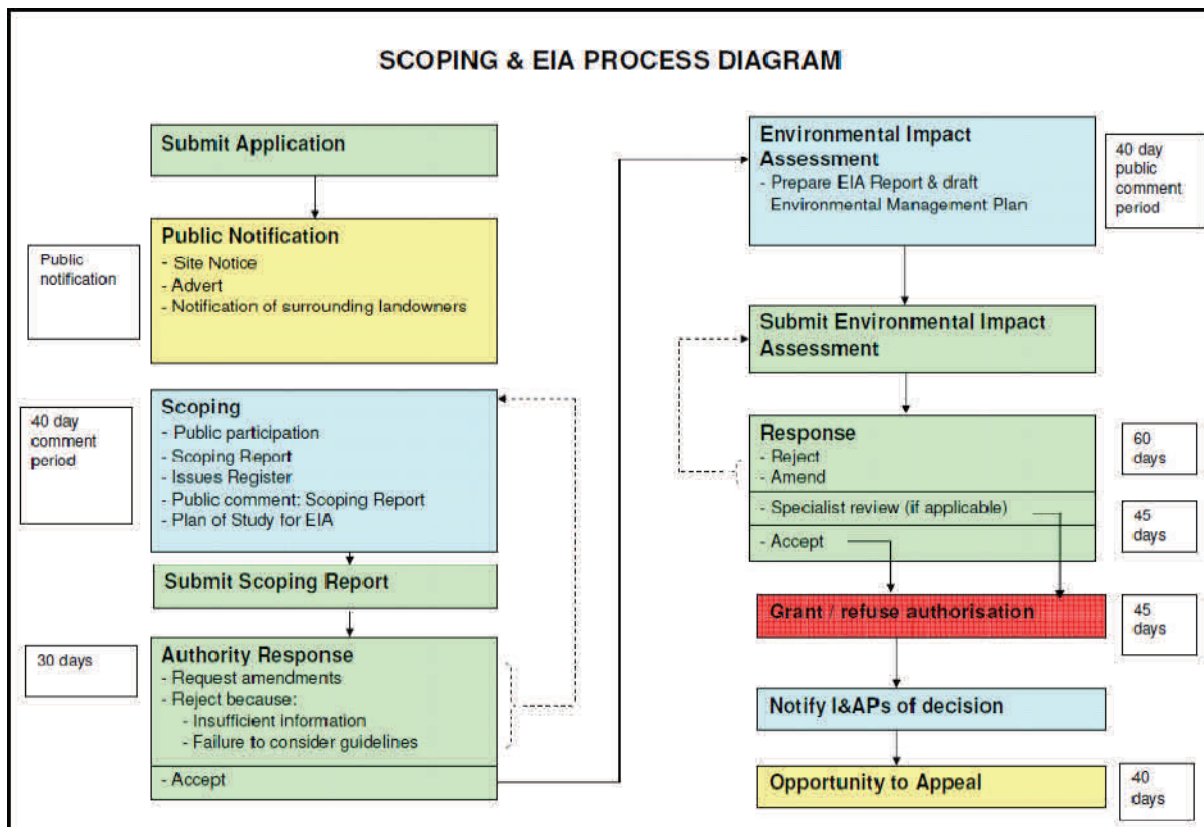

National Environmental Management: Waste Act (Act 59 of 2008), as amended

The National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) came into effect on 1 July 2010 and repealed Section 20 of the Environmental Conservation Act, 1989 (Act No. 73 of 1989), introducing new provisions with regards to the licensing of waste management activities. The National Environmental Management: Waste Amendment Act (Act 26 of 2014) was promulgated on 2 June 2014 and repealed or replaced various sections of NEMWA.

The list of waste management activities that have, or are likely to have, a detrimental effect on the environment were promulgated on 29 November 2013 (GN R. 921). According to GN R.921, a person who wishes to commence, undertake or conduct:

- an activity listed under Category A, must conduct a Basic Assessment process; or
- an activity listed under Category B, must conduct a Scoping and EIA process.

There are a number of both Category A and Category B listed activities at Venetia Mine and, as such, a full Scoping and EIA is required for this Waste Management Licence application. The National Environmental Management Act (NEMA) EIA Regulations must be followed, with a successful application resulting in the issuing of a **Waste Management Licence**. The relevant published Norms and Standards will also be considered.

The listed activities being applied for under this Waste Management Licence application include:

GN 921 Listing Category	Activity to be Licensed	Description
Waste Management Activities: Waste Management Facility (WMF)		
Category A, No. 2	The sorting, shredding, grinding, crushing, screening or bailing of general waste at a facility that has an operational area in excess of 1,000m ² .	1. The sorting and baling of general waste: <ul style="list-style-type: none"> • Cardboard; • Paper; • Glass; • Cans; • Plastic; and • Non-recyclable domestic waste, including food waste and compost the food waste 2. The shredding and chipping of wood. 3. Composting of food wastes.
Category A, No. 3	The recycling of general waste at a facility that has an operational area in excess of 500m ² , excluding recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Recycling and/or re-use of waste: Manual and/or mechanical sorting, dismantling, baling, stripping, shredding, crushing, chipping and compaction of any of the following wastes: Used screen panels, metals, conveyor belts, hard hats, safety boots, overalls, plastic water containers, blasting wire, electrical cabling, redundant furniture, windscreen glass, rubber and air filters and wood.
Category A, No. 5	The recovery of waste including the refining, utilisation, or co-processing of waste in excess of 10 tons but less than 100 tons of general waste per day or in excess of 500kg but less than 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Recovery of wood (chipping and hammer mill).
Category A, No. 12	The construction of a facility for a waste management activity listed in Category A of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category A, No. 13	The expansion of a waste management activity listed in Category A or B of this Schedule which does not trigger an additional waste management activity in terms of this Schedule.	All construction and associated activities relating to the upgrade of the WMF.
Category B, No. 2	The reuse or recycling of hazardous waste in excess of 1 ton per day, excluding reuse or recycling that takes place as an integral part of an internal manufacturing process within the same premises.	<i>Ex situ and in situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.

GN 921 Listing Category	Activity to be Licensed	Description
Category B, No. 3	The recovery of waste including the refining, utilisation, or co-processing of the waste at a facility that processes in excess of 100 tons of general waste per day or in excess of 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	<i>Ex situ and in situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 4	The treatment of hazardous waste in excess of 1 ton per day calculated as a monthly average; using any form of treatment excluding the treatment of effluent, wastewater or sewage.	<i>Ex situ</i> bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 10	The construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category C	GN R. 926 National Environmental Management: Waste Act (59/2008): National norms and standards for the storage of waste.	Registration for Storage of waste under Category C of GN R. 921.
Waste Activities: Demolition and Building Rubble Dump		
Category B, No. 9	The disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorised by or under other legislation.	Disposal of inert waste (demolition and building rubble) used for levelling and building (infilling).

AANSOEK VIR 'N LISENSIE VIR AFVALBESTUUR VIR DIE BESTUUR VAN ALLE AFVALSTROME VIR DIE OOPSKAG- EN ONDERGRONDSE BEDRYGWIGHEDE BY DIE VENETIA-DIAMANTMYN, LIMPOPO-PROVINSIE

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

AGTERGROND TEN OPSIGTE VAN DIE OIS

De Beers Gekonsolideerde Myne (Edms.) Bpk. (DBCM) het vir Environmental Resources Management Southern Africa (Pty) Ltd (ERM) as die onafhanklike omgewingskonsultante aangewys om die omvangbepalings- en omgewingsimpakstudieproses (OIS) vir die voorgestelde aansoek vir 'n lisensie vir afvalbestuur vir die gelyste aktiwiteite te onderneem, wat met die opgradering van die afvalbestuursfasiliteit (ABF) verband hou asook die bepaling van 'n aangewese gebied op die afvalklip-stortterrein vir die wegdoening van slopings- en boumateriale by die Venetia-diamantmyn (Venetia), Limpopo-provinsie.

DOEL VAN HIERDIE DOKUMENT

Die doel van hierdie agtergrondinligtingsdokument (AID) is ten einde belanghebbende en geaffekteerde partye (B&GP) van agtergrondinligting rakende die voorgestelde projek te voorsien en ook om die OIS-proses wat onderneem gaan word, uit te lig. Hierdie dokument het ten doel om B&GP in te lig aangaande deelname aan die OIS-proses. U word aangemoedig om as 'n B&GP te registreer sodat u op hoogte kan bly met betrekking tot die projek deurgaans die proses.

Hierdie dokumente sal verder ook beskikbaar wees op verskillende stadiums tydens die OIS-proses om B&GP van gedetailleerde inligting omtrent die projek te voorsien en daar sal ook verdere geleentheid wees om vrae te vra, knelpunte te opper en voorstelle te maak ten einde die voordele van die projek te bevorder. Belanghebbende sal ook die geleentheid ontvang ter bevestiging dat hulle knelpunte oorweeg is en om kommentaar te lewer op enige studiebevindinge. Hierdie bevindinge saam met u kommentaar sal hierna aan die bevoegde owerheid, naamlik die Departement van Omgewingsake (DOS) voorgelê word vir oorweging. Neem asseblief kennis dat die konsep-omvangbepalingsverslag vir kommentaar beskikbaar is by die volgende plekke:

Registreer as 'n B&GP

Environmental Resources Management Southern Africa (Pty) Ltd (ERM) is deur De Beers Gekonsolideerde Myne (Edms.) Bpk. aangewys om die omgewingsimpakstudieproses (OIS) asook geassosieerde openbare deelnameproses te onderneem.

U word uitgenooi om as 'n B&GP te registreer en kommentaar met betrekking tot hierdie projek te lewer. Voltooi asseblief die ingeslote registrasie-/kommentaarblad en/of kontak:

PROJEKBESKRYWING

Projekligging

Die Venetia-diamantmyn is op die Venetia 103MS-, Krone 104MS-, Rugen 105MS- en Drumsheugh 99MS-plase geleë, wat ongeveer 80 km wes vanaf Musina en 40 km noord-oos vanaf Alldays in die Limpopo-provinsie van Suid-Afrika lê. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord vanaf Johannesburg geleë.

Die myn is binne die Musina plaaslike munisipaliteit vanaf die Vhembe-distriksmunisipaliteit geleë. Die grens by Botswana en Zimbabwe is ongeveer 30 km na die noorde geleë.

Figuur 1. Mynligging van Venetia

Aansoek vir 'n lisensie vir afvalbestuur (ABF)

Projekagtergrond

Die Venetia-diamantmyn is 'n bestaande oopskagmyn wat onlangs (Oktober 2012) 'n omgewingsmagtiging (OM) en positiewe rekordsbesluit van DMR by Limpopo se Departement van Ekonomiese Ontwikkeling, Omgewingsake en Toerisme (LEDET) ontvang het vir die ontwikkeling van ondergrondse bedrywighede en 'n wysiging van die bestaande omgewingsbestuursplan (OBP). Die verwagting is dat oopskagmynbedrywighede tussen 2020 en 2023 beëindig sal word, waarna slegs ondergrondse bedrywighede sal voortgaan. Die aansoek vir 'n lisensie vir afvalbestuur word tans onderneem ten einde die gelyste aktiwiteite te lisensieer, wat met die opgradering van die afvalbestuursfasiliteit (ABF) verband hou, asook die aangewese wegdoeningsgebied vir konstruksie-, slopings- en boumateriale afkomstig van mynbedrywighede ten einde aan die wetgewende vereistes kragtens die Wet op Nasionale Omgewingsbestuur: Afval (Wet 59 van 2008) te voldoen.

Behoeftes en wenslikheid van die projek

Huidige afvalbestuursaktiwiteite en -fasiliteite by Venetia kan hersien en opgradeer word, asook weereens wettig verklaar word (soos volgens die voorgestelde projekomvangbepaling). Die bestuur van afval op die terrein asook weg van die terrein sal verder ook meer stroombelyn wees. Die voorgestelde afvalbestuursaktiwiteite, soos gelys in GN R.921, sluit die volgende in:

- konstruksie en uitbreiding van 'n fasiliteit vir afvalbestuur;
- sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval;
- herwinning van algemene afval;
- herstel/herwinning van afval, insluitende die suiwering, benutting of gelyktydige verwerking van afval;
- herbenutting of herwinning van gevaarlike afval;
- behandeling van gevaarlike afval; en
- wegdoening van onaktiewe afval vir grondopvulling.

Die hoofdoelstelling van hierdie aansoek vir 'n lisensie vir geïntegreerde afval, het ten doel dat die Venetia-diamantmyn volledige nakoming kan bereik met betrekking tot die verskeie afvalbestuursaktiwiteite, sodra dit prakties moontlik word.

Die afvalbestuursfasiliteit (ABF)

Die ABF (wat voorheen as die "bergingswerf" bekend gestaan het) is 'n gebied wat tans gebruik word vir die sortering, bepaling, herbenutting, herwinning en keuring van afval wat ingevorder word voor die finale wegdoeningsproses. Algemene sowel as gevaarlike afvalmateriaal word hier ontvang, geberg, gesorteer, herwin en dan uiteindelik (waar moontlik) vanaf die myn vir finale wegdoening oorgeplaas. Byna alle afvalstrome wat by die myn ingesamel word, word tans deur hierdie fasiliteit gestuur.

Die ABF is 'n bestaande fasiliteit, maar uitbreiding word voorgestel (soos volgens hierdie aansoek) en die Venetia-diamantmyn beoog om hierdie gebied wettig te verklaar.

Gebied op die afvalklip-stortterrein vir die wegdoening van slopings- en boumateriaal

Daar word voorgestel dat daar weggedoen word met verskeie soorte afval binne die bestaande afvalklip-stortterreine weens verskeie probleme om hierdie afvalmateriaal vanaf die perseel te verwyder, alhoewel hierdie aansoek nie vir enige mineraalafval bestem is nie. Die soorte afval vir voorgestelde wegdoening op die afvalklip-stortterrein sluit grondverskuiwingvoertuigbande, liggewigvoertuig-afvalbande, bouafval, slopings- en konstruksieafvalmateriaal en houtafval in.

DIE OMGEWINGSIMPAKSTUDIEPROSES

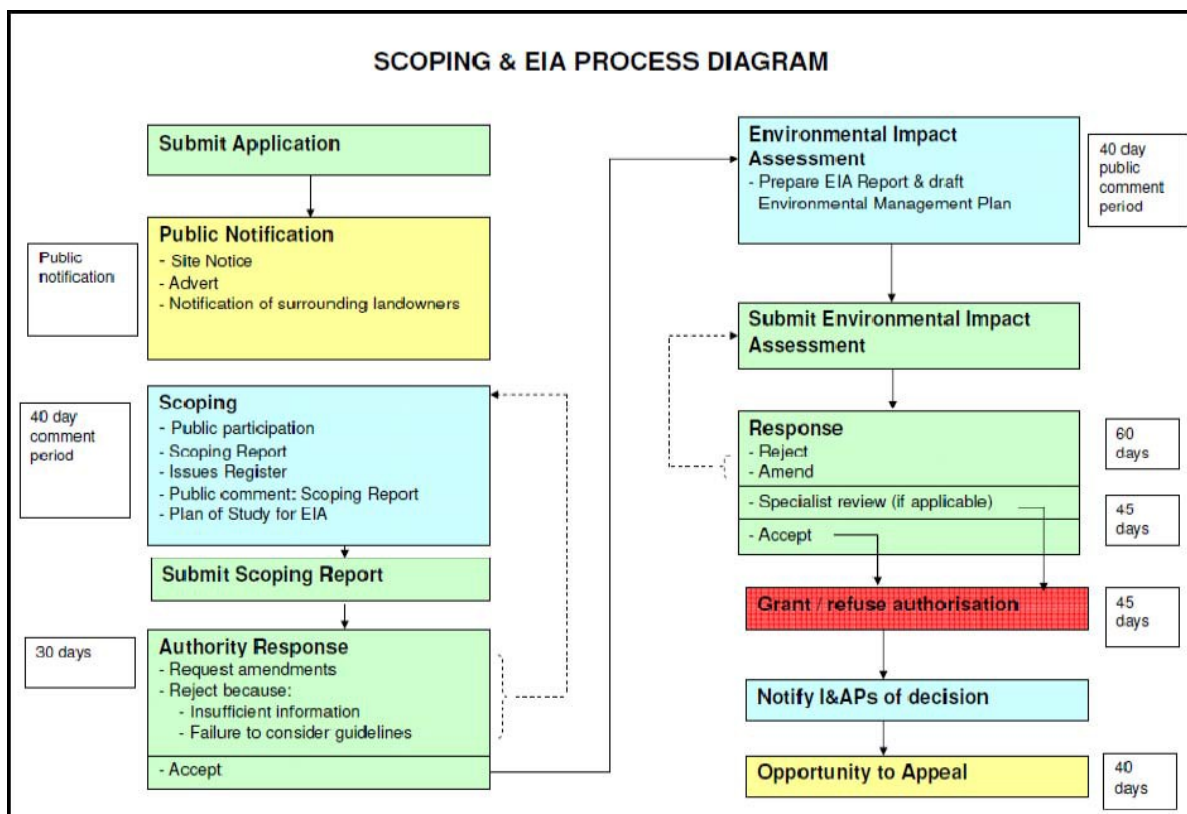

Wet op Nasionale Omgewingsbestuur: Afval (Wet 59 van 2008), soos gewysig

Die Wet op Nasionale Omgewingsbestuur: Afval, 2008 (Wetnr. 59 of 2008) het op 1 Julie 2010 in werking getree en het Afdeling 20 van die Wet op Omgewingsbewing, 1989 (Wetnr. 73 van 1989) herroep en nuwe voorwaardes bekend gestel met betrekking tot die lisensiering van afvalbestuursaktiwiteite. Die Wysigingswet op Nasionale Omgewingsbestuur: Afval (Wet 26 van 2014) is op 2 Junie 2014 uitgevaardig en het verskeie afdelings van NEMWA herroep en vervang.

Die lys van afvalbestuursaktiwiteite wat tans of waarskynlik in die toekoms 'n nadelige uitwerking op die omgewing sal hê, is op 29 November 2013 (GN R. 921) uitgevaardig. 'n Persoon wat volgens GN R.921 graag 'n aktiwiteit wil aanpak, onderneem of uitvoer:

- soos gelys onder Kategorie A, moet 'n basiese assesseringsproses uitvoer; of
- soos gelys onder Kategorie B, moet 'n omvangbepalings- en OIS-proses uitvoer.

Daar is 'n aantal gelyste aktiwiteite in beide Kategorie A en Kategorie B by die Venetia-diamantmyn en dus word 'n volledige omvangbepalings- en OIS-proses vereis vir hierdie aansoek vir 'n lisensie vir afvalbestuur. Die Wet op Nasionale Omgewingsbestuur (WNOB) se OIS-regulasies moet gevolg word met 'n suksesvolle aansoek wat tot die uitreiking van 'n **afvalbestuurslisensie** aanleiding sal gee. Die toepaslik gepubliseerde norme en standarde sal ook oorweeg word.

Die gelyste aktiwiteite waarvoor aansoek gedoen word kragtens hierdie aansoek vir 'n lisensie vir afvalbestuur, wat die volgende insluit:

GN 921 Lystingskategorie	Aktiwiteit vir lisensiëring	Beskrywing
Afvalbestuursaktiwiteite: Afvalbestuursfasiliteit (ABF)		
Kategorie A, Nr. 2	Die sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval by 'n fasiliteit wat 'n bedryfsoppervlakte het wat groter as 1,000m ² is.	1. Die sortering en uitskepping van algemene afval: <ul style="list-style-type: none"> • Karton; • Papier; • Glas; • Blikkies; • Plastiek; en • Nieherwinbare huislike afval, insluitende kosafval en komposbereiding van kosafval 2. Die versnippering en kerf van hout. 3. Komposbereiding van kosafval.
Kategorie A, Nr. 3	Die herwinning van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 500m ² beslaan, uitgesluit alle herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herwinning en/of herbenutting van afval: Handmatige en/of meganiese sortering, ontkoppeling, uitskepping, stroping, versnippering, saampers, kerf en kompaktering van enige van die volgende afval: Gebruikte skermpanele, metale, vervoerbande, veiligheidshelms, veiligheidstewels, oorpakke, plastiese waterhouers, plofbare myntraad, elektriese kables, oortollige meubels, voorruitglas, rubber en lugfilters.
Kategorie A, Nr. 5	Die herstel/herwinning van afval insluitende die suiwering, benutting of gelyktydige verwerking van afval wat meer as 10 ton, maar minder as 100 ton algemene afval per dag is óf wat meer as 500 kg, maar minder as 1 ton gevaarlike afval per dag is, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herstel/herwinning van hout (snipper- en hamermeule).
Kategorie A, Nr. 12	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.

Kategorie A, Nr. 13	Die uitbreiding van 'n afvalbestuursaktiwiteit wat in Kategorie A of B van hierdie skedule gelys word, wat nie tot 'n addisionele afvalbestuursaktiwiteit aanleiding gee in terme van hierdie skedule nie.	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie B, Nr. 2	Die herbenutting of herwinning van gevaarlike afval wat meer as 1 ton per dag is, uitgesluit die herbenutting of herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 3	Die herstel/herwinning van afval insluitende die suiwering, benutting of gelyktydige verwerking van afval by 'n fasiliteit wat meer as 100 ton algemene afval per dag óf meer as 1 ton gevaarlike afval per dag verwerk, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 4	Die behandeling van gevaarlike afval wat meer as 1 ton per dag is en wat volgens 'n maandelikse gemiddelde bereken word. Dit word bereken deur enige vorm van behandeling te gebruik, uitgesluit die behandeling van uitvloeisel-, afval- of rioolwater.	Die bioherstel van koolwaterstof, besoedelde grond buite en binne die natuurlike omgewing met die moontlike byvoeging van rioolslyk.
Kategorie B, Nr. 10	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie C	GN R. 926 Wet op Nasionale Omgewingsbestuur: Afval (59/2008): Nasionale norme en standaarde vir die berging van afval.	Registrasie vir stoorplek van afval kragtens Kategorie C van GN R. 921.
Afvalaktiwiteite: Slopings- en boumateriaal-afvalstortterrein		
Kategorie B, Nr. 9	Die wegdoening van onaktiewe afval vir grondopvulling wat meer as 25 000 ton is, uitgesluit die wegdoening van sodanige afval vir die doeleindes van gelykmaking en boubedrywighede wat deur of kragtens ander wetgewing	Wegdoening van onaktiewe afval (slopings- en bouafval) wat vir die gelykmaking en boubedrywighede (vulling) gebruik word.

Maak asseblief seker dat u geregistreer het en/of u kommentaar teen 26 September 2014 voorgelê het, ten einde dit vir insluiting te oorweeg.

U word uitgenooi om deel te wees van die OIS-proses. U word as belanghebber uitgenooi ten einde probleme te identifiseer en knelpunte te opper wat u dalk mag hê in verband met die aansoek vir 'n lisensie vir afvalbestuur. Enige lid van die publiek kan as 'n belanghebber deurgaans die proses registreer. Raadpleeg asseblief bladsy 1 vir die verskeie plekke wat die WML-konseptomvangbepalingsverslag beskikbaar het vir kommentaar. Die projekspan sal antwoord op alle vrae verskaf, en alle kommentaar en antwoorde sal in die finale omvangbepalingsverslag ingesluit word wat aan die DOS vir hul oorweging voorgelê sal word.

Indien u enige navrae, kommentaar of voorstelle aangaande die voorgestelde projek het, teken dit asseblief hieronder aan.

Stuur hierdie kommentaarblad terug aan Tougheeda Aspeling van ERM

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

September 2014

Waste Management Licence Application:
Waste management of all waste streams for the
open pit and underground operations at Venetia
Mine, Limpopo Province

DEA Ref Number (WML): 12/9/11/L43049/5

BECOME INVOLVED

De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine, is currently undertaking an Environmental Impact Assessment process in accordance with Section 45(1) of the **National Environmental Management: Waste Act (Act No. 59 of 2008) as amended**, and the associated regulations as published on 29 November 2013 (GN 921), to license the listed waste management activities for the proposed upgrades to the existing Waste Management Facility (WMF) and establishment of an area on the waste rock dump for the disposal of wood, and construction, demolition and building materials.

Location of Project

Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms.. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact **Tougheeda Aspeling** of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072

Email: VenetiaMineEIA@erm.com

**Postal Address: The Great Westerford, 2nd Floor, 240 Main Road,
Rondebosch, Cape Town**

Please also look at the Project Website for all documentation:

<http://www.erm.com/VenetiaMineEIA>

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended. The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

KENNISGEWING VAN OMGEWINGSIM- PAKSTUDIEPROSES

Aansoek vir 'n lisensie vir afvalbestuur: Afval-
bestuur van alle afvalstrome vir die oopskag- en
ondergrondse bedrywighede by die Venetia-
diamantmyn, Limpopo-Provinsie

September 2014

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

WORD BETROKKE

De Beers Gekonsolideerde Myne (Edms.) Bpk. (DBCM), Venetia-diamantmyn, onderneem tans 'n omgewingsimpakstudieproses in ooreenstemming met Afdeling 45(1) van die **Wet op Nasionale Omgewingsbestuur: Afval (Wetnr. 59 van 2008)**, soos gewysig, asook die geassosieerde regulasies soos op 29 November 2013 (GN 921) gepubliseer is, ten einde die gelyste afvalbestuursaktiwiteite vir die voorgestelde opgraderings tot die bestaande afvalbestuursfasiliteit (ABF) te lisensieer, asook die bepaling van 'n gebied op die afvalklip-stortterrein vir die wegdoening van hout, konstruksie-, slopings- en boumateriale.

Ligging van die projek

Die Venetia-diamantmyn is op 'n 3 000 ha-gebied met mynregte op die Venetia 103MS-, Krone 104MS-, Rugen 105MS- en Drumsheugh 99MA-plase geleë. Die myn lê ongeveer 80 km wes van Musina en 40 km noord-oos van Alldays af, in die Limpopo-provinsie van Suid-Afrika. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord van Johannesburg af geleë.

Ten einde as 'n belanghebbende en geaffekteerde party (B&GP) te registreer, kommentaar te lewer op die voorgestelde projek asook die omgewingsimpakstudie of vir enige verdere inligting, skakel asseblief **Tougheeda Aspeling** van ERM by:

Tel: 021 681 5400, Fax: 086 5404 072

E-pos: VenetiaMineEIA@erm.com

**Posadres: The Great Westerford, 2^{de} Vloer, Hoofweg 240,
Rondebosch, Kaapstad**

Besoek gerus ook die projekwebtuiste vir alle dokumentasie:

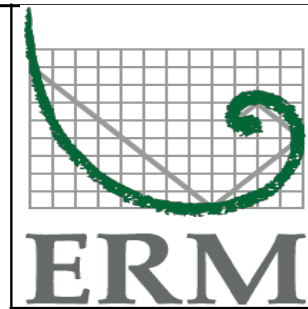

<http://www.erm.com/VenetiaMineEIA>

Kennisgewing word hierdeur gegee van 'n openbare deelnameproses en die voorneme om vir omgewingsmagtiging aansoek te doen in terme van die OIS-regulasies van 18 Junie 2010 kragtens Afdeling 24(5) van die Wet op Nasionale Omgewingsbestuur, 1998 (Wetnr. 107 van 1998), soos gewysig. Die voorgestelde afvalbestuursaktiwiteite gee aanleiding tot beide Kategorie A- en B-aktiwiteite, soos gelys in GN 921 en vereis dus dat 'n volledige omvangbepalings- en OIS-proses onderneem word.

Dear Interested & Affected Party

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA)
PROCESS**

**Waste Management Licence Application: Waste Management of All
Waste Streams for the Open Pit and Underground Operations at
Venetia Mine, Limpopo Province**

De Beers Consolidated Mines (Pty) Ltd (DBCM) has appointed Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as the independent environmental consultants to undertake the Environmental Impact Assessment (EIA) process for the proposed Waste Management Licence Application for the listed activities associated with the upgrade of the Waste Management Facility (WMF) and establishing a designated area on the waste rock dump for the disposal of demolition and building materials at the Venetia Diamond Mine (Venetia), Limpopo Province.

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998) (NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) **as amended** of the intent to carry out the above-mentioned activities at the Venetia Mine to be authorised by the National Department of Environmental Affairs (DEA).

Project Locality

The Venetia Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

Venetia Mine is located within the Musina Local Municipality of the Vhembe District Municipality. The border with Botswana and Zimbabwe is situated approximately 30km to the north.

Project Description

Venetia Mine is an existing open pit mine and recently (July 2012) Environmental Authorisation (EA) for the development of underground workings and an amendment of the existing Environmental Management Plan (EMP). DBCM anticipates that the current open pit mining operations will cease between 2020 and 2023 subject to market conditions, production targets and open pit mining scenarios, after which only underground operations will continue.

The listed activities being applied for under this Waste Management Licence application include:

GN 921 Listing Category	Activity to be Licensed	Description
Waste Management Activities: Waste Management Facility (WMF)		
Category A, No. 2	The sorting, shredding, grinding, crushing, screening or baling of general waste at a facility that has an operational area in excess of 1,000m ² .	The sorting and baling of general waste: <ul style="list-style-type: none"> • Cardboard; • Paper; • Glass; • Cans; • Plastic; and • Non-recyclable domestic waste, including food waste.

GN 921 Listing Category	Activity to be Licensed	Description
Category A, No. 3	The recycling of general waste at a facility that has an operational area in excess of 500m ² , excluding recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Recycling and/or re-use of waste: Manual and/or mechanical sorting, dismantling, baling, stripping, shredding, crushing and compaction of any of the following wastes: Used screen panels, metals, conveyor belts, hard hats, safety boots, overalls, plastic water containers, blasting wire, electrical cabling, redundant furniture, windscreen glass, rubber and air filters.
Category A, No. 5	The recovery of waste including the refining, utilisation, or co-processing of waste in excess of 10 tons but less than 100 tons of general waste per day or in excess of 500kg but less than 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Recovery of wood (chipping and hammer mill).
Category A, No. 12	The construction of a facility for a waste management activity listed in Category A of this Schedule (not in isolation to associated waste management activity).	All construction and associated activities relating to the upgrade of the WMF.
Category A, No. 13	The expansion of a waste management activity listed in Category A or B of this Schedule which does not trigger an additional waste management activity in terms of this Schedule.	All construction and associated activities relating to the upgrade of the WMF.
Category B, No. 2	The reuse or recycling of hazardous waste in excess of 1 ton per day, excluding reuse or recycling that takes place as an integral part of an internal manufacturing process within the same premises.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 3	The recovery of waste including the refining, utilisation, or co-processing of the waste at a facility that processes in excess of 100 tons of general waste per day or in excess of 1 ton of hazardous waste per day, excluding recovery that takes place as an integral part of an internal manufacturing process within the same premises.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.
Category B, No. 4	The treatment of hazardous waste in excess of 1 ton per day calculated as a monthly average; using any form of treatment excluding the treatment of effluent, wastewater or sewage.	Ex situ bio-remediation of hydrocarbon contaminated soil, with the potential addition of sewage sludge.

How can you make a comment?

The Draft Scoping Report is currently out for comment and will be available for a full 40 day comment period, from 26 September 2014 to 05 November 2014, as required under NEMWA and the relevant Regulations.

There are a number of ways in which interested and affected parties can find out more about the project and/ or make your comments:

1. Register as an Interested and Affected Party (I&AP) by contacting Tougheeda Aspeling of ERM (ERM Reference No. 212120) on:

Tel: 021 681 5400; Fax: 086 540 4072

Email: VenetiaMineEIA@erm.com

Postal Address: Postnet Suite 90 Private Bag X12 Tokai 7945

2. Comment on the Draft Scoping Report which will be available at:

Location	Contact	Location	Contact
Local Musina Municipal Library	(015) 534 6100	Musina Post Office	(015) 534 2003
Blouberg Municipality Alldays Satellite Library	(015) 5751144	Musina Spar	(015) 534 0750

ERM Verwysingsnommer: 0212120

DOS Verwysingsnommer (ABF): 12/9/11/L43049/5

Geagte belanghebbende en geaffekteerde party

KENNISGEWING VAN OMGEWINGSIMPAKSTUDIEPROSES (OIS)

Aansoek vir 'n lisensie vir afvalbestuur: Afvalbestuur van alle afvalstrome vir die oopkag- en ondergrondse bedrywighede by die Venetia-diamantmyn, Limpopo-provinsie

De Beers Gekonsolideerde Myne (Edms.) Bpk. (DBCM) het vir Environmental Resources Management Southern Africa (Pty) Ltd (ERM), as die onafhanklike omgewingskonsultante aangewys om die omgewingsimpakstudieproses (OIS) vir die voorgestelde aansoek vir 'n lisensie vir afvalbestuur te onderneem, vir die gelyste aktiwiteite wat met die opgradering van die afvalbestuursfasiliteit (ABF) geassosieer word, asook die bepaling van 'n aangewese gebied op die afvalklipstortterrein vir die wegdoening van slopings- en boumateriale by die Venetia-diamantmyn (Venetia), Limpopo-provinsie.

Kennisgewing word hierdeur gegee in terme van die regulasies wat kragtens Afdeling 24 (5) van die Wet op Nasionale Omgewingsbestuur (Wetnr. 107 van 1998) (NEMA) uitgevaardig is, soos gewysig, en Afdeling 45 (1) van die Wet op Nasionale Omgewingsbestuur: Afval (Wetnr. 59 van 2008) (NEM:WA), **soos gewysig**, van die voorneme om die bogenoemde aktiwiteite by die Venetia-diamantmyn te onderneem wat deur die Nasionale Departement van Omgewingsake (DOS) goedgekeur moet word.

Projekligging

Die Venetia-diamantmyn is ongeveer 80 km wes vanaf Musina en 40 km noord-oos vanaf Alldays in die Limpopo-provinsie van Suid-Afrika geleë. Venetia is duskant die R521 tussen Alldays en Pontdrift, ongeveer 550 km noord vanaf Johannesburg geleë.

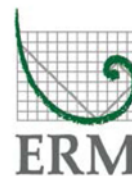

Die Venetia-diamantmyn is binne die Musina plaaslike munisipaliteit vanaf die Vhembe-distriksmunisipaliteit geleë. Die grens by Botswana en Zimbabwe is ongeveer 30 km na die noorde geleë.

Deel 3 van die plaas Venetia 103MS	MS T15902/1981
Deel 4 van die plaas Venetia 103MS	MS T15902/1981
Deel 5 van die plaas Venetia 103MS	MS T15902/1981
Oorblywende grootte van Venetia 103MS	MS T15902/1981
Deel 1 van die plaas Krone 104MS	MS T7038/1983
Oorblywende grootte van Krone 104MS	MS T 17958/1981
Oorblywende grootte van Rugen 105MS	MS T34207/1989
Die plaas Drumsheugh 99MS	MS T73117/1990

Projekbeskrywing

Die Venetia-diamantmyn is 'n bestaande oopskagmyn en het onlangs (Julie 2012) omgewingsmagtiging (OM) vir die ontwikkeling van ondergrondse bedrywighede ontvang en 'n wysiging op die bestaande omgewingsbestuurplan (OBP). DBCM het die verwagting dat die huidige oopskagmynbedrywighede tussen 2020 en 2023 beëindig sal word, onderhewig aan marktoestande, produksietekens en oopskagmynvoorspellings, waarna slegs ondergrondse bedrywighede sal voortgaan.

Die gelyste aktiwiteite waarvoor daar aansoek gedoen word kragtens hierdie aansoek vir 'n lisensie vir afvalbestuur, sluit die volgende in:

GN 921 Lystingskategorie	Aktiwiteit vir lisensiering	Beskrywing
Afvalbestuursaktiwiteite: Afvalbestuursfasiliteit (ABF)		
Kategorie A, Nr. 2	Die sortering, versnippering, fynmaal, saampers, keuring of uitskepping van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 1,000m ² beslaan.	Die sortering en uitskepping van algemene afval: <ul style="list-style-type: none"> • Karton; • Papier; • Glas; • Blikkies; • Plastiek; en • Nieherwinbare huislike afval, insluitende kosafval.

GN 921 Lystingskategorie	Aktiwiteit vir lisensiëring	Beskrywing
Kategorie A, Nr. 3	Die herwinning van algemene afval by 'n fasiliteit met 'n bedryfsarea wat 500m ² beslaan, uitgesluit alle herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herwinning en/of herbenutting van afval: Handmatige en/of meganiese sortering, ont koppeling, uitskepping, stroping, versnippering, saampers en kompaktering van enige van die volgende afval: Gebruikte skermpanele, metale, vervoerbande, veiligheidshelms, veiligheidstewels, oorpakke, plastiese waterhouers, plofbare myndraad, elektriese kables, oortollige meubels, voorruitglas, rubber en lugfilters.
Kategorie A, Nr. 5	Die herstel/herwinning van afval insluitende die suiwing, benutting of gelyktydige verwerking van afval wat meer as 10 ton, maar minder as 100 ton algemene afval per dag is óf wat meer as 500 kg, maar minder as 1 ton gevaarlike afval per dag is, uitgesluit die herstel/herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Herstel/herwinning van hout (snipper- en hamermeule).
Kategorie A, Nr. 12	Die konstruksie van 'n fasiliteit vir 'n afvalbestuursaktiwiteit wat in Kategorie A van hierdie skedule gelys word (nie in isolasie tot geassosieerde afvalbestuursaktiwiteit nie).	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie A, Nr. 13	Die uitbreiding van 'n afvalbestuursaktiwiteit wat in Kategorie A of B van hierdie skedule gelys word, wat nie tot 'n addisionele afvalbestuursaktiwiteit aanleiding gee in terme van hierdie skedule nie.	Alle konstruksie en geassosieerde aktiwiteite wat met die opgradering van die ABF verband hou.
Kategorie B, Nr. 2	Die herbenutting of herwinning van gevaarlike afval wat meer as 1 ton per dag is, uitgesluit die herbenutting of herwinning wat plaasvind as 'n integrale deel van 'n interne vervaardigingsproses binne dieselfde perseel.	Die bioherstel van koolwaterstof, besoedelde grond buite die natuurlike omgewing met die moontlike byvoeging van rioolslyk.

Hoe kan u kommentaar lewer?

Die konsep-omvangbepalingsverslag is tans vrygestel vir kommentaar en sal vir 'n kommentaartydperk van 'n volle 40 dae beskikbaar wees, vanaf 18 September 2014 tot 05 November 2014, soos vereis kragtens NEMWA asook die relevante regulasies.

Daar is verskeie maniere waarop belanghebbende en geaffekteerde partye meer kan uitvind omtrent die projek en/of kommentaar kan lewer:

1. Registreer as 'n belanghebbende en geaffekteerde party (B&GP) deur Tougheeda Aspeling van ERM (ERM Verwysingsnommer 212120) te skakel by:

Tel: 021 681 5400; Faks: 086 540 4072

E-pos: VenetiaMineEIA@erm.com

Posadres: Postnetsuite 90, Privaatsak X12, Tokai 7945

2. Kommentaar met betrekking tot die konsep-omvangbepalingsverslag wat by die volgende plekke beskikbaar sal wees:

Plek	Kontak	Plek	Kontak
Musina se plaaslike munisipale biblioteek	(015) 534 6100	Musina se poskantoor	(015) 534 2003
Blouberg se munisipaliteit Alldays-satellietbiblioteek	(015) 5751144	Musina Spar	(015) 534 0750
Mapungubwe se ingangshek/besoekersentrum	(015) 534 7923/24	Gemeenskapsaal – Nancefield	(015) 534 6100
Venetia-ontvangs	(015) 575 2710	Pontdrift se polisiestatie	(015) 5759908
ERM-projekwebtuiste	http://www.erm.com/VenetiaMineEIA	Musina se munisipale kantore	(015) 534 6181

Maak asseblief seker dat alle kommentaar ten opsigte van die konsep-omvangbepalingsverslag die ERM-kantore teen 05 November 2014 bereik, ten einde alle bogenoemde in te sluit.

Ons sien uit na u voortgesette deelname aan hierdie projek.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

DEA Ref Number (WML): 12/9/11/L43049/5

**Waste Management Licence Application: Waste
management of all waste streams for the open pit
and underground operations at the
Venetia Mine, Limpopo Province**

Notice is hereby given in terms of the regulations promulgated under Section 24 (5) of the National Environmental Management Act (Act No. 107 of 1998)(NEMA) as amended, and the Section 45 (1) of the National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA) as amended, regarding the proposed listed activities associated with the upgrade of the Waste Management Facility and formalisation of disposal areas on the Waste Rock Dump for wood and construction, demolition and Building materials at the De Beers Consolidated Mines (Pty) Ltd (DBCM), Venetia Mine.

ERM Southern Africa (Pty) Ltd has been appointed as the Independent Environmental Assessment Practitioner (EAP) to undertake the Environmental Impact Assessment (EIA) process as per the aforementioned EIA regulations.

Location of Project
Venetia Mine is situated on a 3000 ha mining rights area on the Venetia 103MS, Krone 104 MS, Rugen 105MS and Drumsheugh 99MA farms. The Mine lies approximately 80km west of Musina and 40km north east of Alldays in the Limpopo Province of South Africa. Venetia is situated off the R521 between Alldays and Pontdrift, approximately 550 km north of Johannesburg.

To register as an Interested and Affected Party (I&AP), comment on the proposed project and Environmental Impact Assessment or for further information, please contact Tougheeda Aspeling of ERM at:

Tel: 021 681 5400, Fax: 086 5404 072
Email: VenetiaMineEIA@erm.com
**Postal Address: The Great Westerford, 2nd Floor, 240 Main Road,
Rondebosch, Cape Town**

Refer to the Project Website for all documentation:
<http://www.erm.com/VenetiaMineEIA>

Please quote the following reference numbers on all correspondence:
DEA Ref: 12/9/11/L43049/5; ERM Ref: 0212120

Please note that the Draft Scoping Report (DSR) is currently available for public comment. Kindly register as an I&AP or refer to the project website for details on the availability of the DSR and for regular updates throughout the EIA process. Please ensure that all comments on the DSR reach ERM by 05 November 2014.

Notice is given of a Public Participation Process and the intention to apply for Environmental Authorisation in terms of the EIA Regulations of 18 June 2010 under Section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended.
The proposed waste management activities trigger both Category A and Category B activities as listed in GN 921 thus requiring that a full Scoping and EIA process be undertaken.

Advertisements were placed in the Capricorn Voice on the 17 September 2014, Limpopo Mirror on the 19 September 2014, Northern Gazette on the 19 September 2014, Zoutspansberger Nuus on the 19 September 2014 and the Sowetan News on the 19 September 2014.
