RE: EIA for Exploration Drilling within Offshore Block ER236, KZN, South Africa: Notification of Lapse of EIA Application

Dear Stakeholder,

ERM has experienced unforeseen delays in the finalising of specialist studies for the Exploration Drilling within Block ER236, which have resulted in subsequent delays in the drafting of certain chapters of the EIA Report. Consequently, ERM was not able to finalise and release the draft report for comment and comply with the stipulated 106 day timeframe in which to submit the final EIA Report by the 03 August 2018, as prescribed in Section 23(1)(a) of the NEMA EIA Regulations. As such, the current EIA Application lapsed on the 03 August 2018.

Eni intend to initiate a new EIA process for the Project. The Final Scoping Report was submitted to PASA on the 08 March and approved on the 16 April 2018. ERM are confident that the baseline environmental and social conditions described in the Scoping Report have not changed since the Scoping Report was

compiled. In line with Section 21(2)(a) and (b) of the NEMA EIA Regulations, ERM are seeking to commence the new EIA process with the submission of an amended application form and the release of the Draft EIA Report for comment. All I&APs registered on the stakeholder database will receive notification when a new EIA process has been initiated.

Please do not hesitate to contact us should you have any queries or if there are any aspects you would like to discuss.

RE: EIA for Exploration Drilling within Offshore Block ER236, KZN, South Africa: Commencement of EIA Process and Invitation to Open House Meetings

Dear Stakeholder,

Eni South Africa BV (Eni), and Sasol Africa Limited (Sasol) hold an Exploration Right 12/3/236 (ER 236) off the East Coast of South Africa. Eni has the operatorship of Block ER 236. Eni and Sasol are considering the possibility of conducting an exploration drilling programme in Block ER 236 to assess the commercial viability of the hydrocarbon reservoir for future development. The project requires Environmental Authorisation (EA)

from the National Department of Mineral Resources (DMR) under the National Environmental Management Act (NEMA) (Act No. 107 of 1998), as amended, through an Environmental Impact Assessment (EIA) process.

An EIA process was commenced in January 2018 with the release of a Draft Scoping Report. The Final Scoping Report was approved by PASA on 16 April 2018. ERM experienced unforeseen delays in the finalising of specialist studies which resulted in subsequent delays in the drafting of the EIA Report. Consequently, ERM was not able to finalise and release the draft report for comment and comply with the stipulated 106 day timeframe in which to submit the final EIA Report by the 03 August 2018, as prescribed in Section 23(1)(a) of the NEMA EIA Regulations. As such, the EIA Application lapsed on the 03 August 2018.

This notification serves to inform stakeholders that a new EIA process has commenced, which was approved by PASA on 29 August 2018, successive to the approval of the Scoping Report on 16 April 2018.

Stakeholders are invited to attend one of the below listed open house meetings where the findings of the draft EIA will be communicated. The meeting will follow an open house format and the participants will have the opportunity to interact with ERM and the Project team, ask questions and provide comment.

The draft EIA is currently being finalised and registered stakeholders will receive notification when the report is available for comment. The draft EIA will be released for a 30 day comment period as per the requirements of NEMA.

A local translator (isiXhosa in the Eastern Cape and isiZulu in Kwa-Zulu Natal) will be present at the open house meetings. Details of the public meetings are as follows:
