Dear Stakeholders

This letter serves to inform you that the scope of Eni and Sasol's exploration drilling project in ER236 is being reconsidered and it will be necessary to amend the current Draft Scoping Report.

As such, based on the current NEMA EIA regulations and associated timelines, Eni have decided to re-release the Draft Scoping Report and re-submit the application form in early 2018. **The public meetings scheduled for the 13th and 14th November in Richards Bay and Durban will therefore be postponed until January/February 2018** and a revised Draft Scoping Report will be released to the public and advertised prior to the meetings. It will be ensured that stakeholders are given the optimal time allowed for by legislation to comment and participate in the process.

Please note that all comments submitted during the initial notification period will still be included in the Comments and Responses Report. Once the revised scope is made available, comments already submitted may be also revised; withdrawn or replaced entirely. All stakeholders who have registered will remain on the stakeholder database.

We apologise for any potential inconvenience caused. We look forward to engaging with you further during 2018.

Yours sincerely

Lindsey

Dear Stakeholder,

RE: Environmental Impact Assessment for Exploration Drilling within Block ER236, off the East Coast of South Africa

Eni South Africa BV (Eni), and Sasol Africa Limited (Sasol) hold an Exploration Right 12/3/236 (ER 236) off the East Coast of South Africa. Eni has the operatorship of Block ER 236. Eni and Sasol are considering the possibility of conducting an exploration drilling programme in Block ER 236 to assess the commercial viability of the hydrocarbon reservoir for future development.

The project requires Environmental Authorisation (EA) from the National Department of Mineral Resources (DMR) under the National Environmental Management Act (NEMA) (Act No. 107 of 1998), as amended, through an Environmental Impact Assessment (EIA) process.

ERM released a Draft Scoping Report on 26 October 2017, which was subsequently withdrawn on 07 November 2017, as Eni and Sasol wished to reconsider the scope of the project.

Notice is hereby given that the revised Draft Scoping Report is available for comment. Changes made to the Draft Scoping Report are largely in the Project Description, Chapter 4, as the ER236 holders are now considering drilling up to six wells, instead of the four wells which were planned in the previous 2017 Draft Scoping Report. Key edits to the project scope have been underlined in the text of the Draft Scoping Report, other edits are outlined below.

All	<ul style="list-style-type: none"> Updated maps to reflect southern area of interest. Minor editorial edits.
Chapter 1 (Introduction)	<ul style="list-style-type: none"> Inclusion of southern area of interest in <i>Section 1.1</i>
Chapter 4 (Project Description)	<ul style="list-style-type: none"> Section 4.1 and Section 4.2 edited to include the southern area of interest
Chapter 5 (Baseline)	<ul style="list-style-type: none"> Updates made throughout to reflect the addition of the southern area of interest
Chapter 6 (EIA Process)	<ul style="list-style-type: none"> Public consultation details edited to reflect re-release of Draft Scoping Report
Chapter 8 (Plan of Study for EIA)	<ul style="list-style-type: none"> Provisional EIA schedule updated to reflect new timeframe

All comments received from stakeholders with regard to the previous Draft Scoping Report have been considered and included in the 2018 Draft Scoping Report, in the Comments and Responses Report (CRR) (*Annex C*). Stakeholders are encouraged to ensure that their comments are captured in the CRR and are welcome to submit further comment to ERM.

The comment period will have a duration of 30 calendar days from 22 January 2018 to 22 February 2018. The Report is available on the Project website: www.erm.com/eni-exploration-eia as well as on request, from ERM, and at the following public locations:

- Durban Central Lending Public Library
- Richards Bay Library
- Port Shepstone Library
- ERM offices, Suite S005, 17 The Boulevard, Westway Office Park, Westville

A Zulu or Afrikaans version of the executive summary can be made available on request.

Stakeholders are invited to attend one of the below listed public meetings where ERM will present more information about the project and the EIA. During the meeting the participants will also have the opportunity to ask questions to the Project team. Details of the public meetings are as follows:

Date: 6 February 2018

VW wants to build SUV in Kenya

A press statement released by the president of Kenya suggests that Volkswagen is ‘exploring’ the possibility of producing a small SUV in the African country.

The German automaker set up a plant in the city of Thika near Nairobi in 2016, initially importing Polo Vivo kits from the Uitenhage factory in SA on either a semi-knocked down or completely knocked down basis.

However, the statement from the office of President Uhuru Kenyatta said that not only was VW now ‘looking to double production’ in the country, it was also keen to ‘introduce a new model at its plant’.

The statement said that VW SA boss, Thomas Schaefer, told President Kenyatta at a recent meeting in East London that the firm was ‘exploring producing a second model in Kenya’ in the form of a small SUV, while also doubling production of the Polo Vivo.
