

ERM CVS to Conduct On-site IRMA Assessment of Anglo American Barro Alto

ERM CVS Seeks Input from Local Community and Other Stakeholders

Today, **9 May 2025**, ERM CVS announces that on **9 – 13 June 2025** it will visit the **Anglo American Barro Alto nickel mining operations** in the Barro Alto municipality, Goiás, Brazil to conduct an independent, third-party **Initiative for Responsible Mining Assurance (IRMA)** surveillance assessment of the operation.

The initial audit report of Anglo American Barro Alto's operations was released on 7 February 2024 with an achievement level of IRMA 75. The report is available on the IRMA website:

<https://connections.responsiblemining.net/site/50>.

The onsite surveillance audit will **verify that the site operations continue to align with the previously recognized performance**. The audit team will verify that the mine's systems and controls are still in place and are functioning effectively, that no major changes have occurred that negatively affect the mine's performance, and that the site is progressing on its corrective action plan. The audit will also include confidential interviews with workers and engagement with community stakeholders. Following the completion of the surveillance audit, a report will be published on the IRMA website.

The abbreviated surveillance audit summary report will provide Barro Alto and stakeholders insight into continuity of operations, material changes, and evidence of continued improvement.

9 June – 13 June 2025

Your comments will help ERM CVS assess the impact of Barro Alto on local communities and measure its performance against best mining practices. ERM CVS invites you to sign-up for an interview with auditors during the surveillance audit, and/or submit written comments about Anglo American Barro Alto using the contact details below. You must contact us before 2 June 2025 to be interviewed. Written comments submitted before 13 June 2025 will be incorporated into the results of this audit.

Interviews with members of the community occur without mine personnel present. Interviews with non-management workers occur without management present and can be scheduled to occur offsite on request. ERM CVS protects the identity of individual commenters although the general nature of comments will be summarized in the report.

ERM CVS is an independent IRMA-approved and trained audit firm. For more about ERM CVS visit [ermcvs.com](https://www.ermcvs.com).

IRMA's mission is to protect the environment and people directly affected by mining. For more about IRMA including the assessment process, the IRMA Standard, and to see audit reports of other mines visit www.responsiblemining.net
